States of America**, 1975 The Code of Federal Regulations is the codification of the general and permanent rules published
in the Federal Register by the executive departments and agencies of the Federal Government *Engineering Construction
Specifications* J. Goldbloom, 2012-12-06 For the past 25 years Joe Goldbloom and I have conducted a running debate over
whether specifications writers engage in the unlawful practice of law Joe's position is that lawyers have no business writing
specifications that being the designer's province Having been given the honor to write this foreword I have the opportunity
for the last word at least for now Joe Goldbloom and I first met in 1964 while serving together on the ASCE Committee on
Contract Administration Joe became my teacher mentor and friend Underlying our good natured debate was the serious issue
of the technical qualifications required of a specifications writer As a matter of fact specifications writing traditionally has
fallen in a crack between the two professions Specifications writing typically is neither taught in engineering school nor in
law school Engineers are taught how to design lawyers are taught how to draft contracts Specifications writing requires
mastery of the technical elements of design as well as the skills of contract drafting Specifications writing is neither
glamorous nor sexy it is often viewed as a necessary evil of the designer's job Standard Specifications for Construction of
