ABC and Tears Of A Clown and countless more Quite often you can ask people what kind of music they like and they will simply answer Motown and both they and you know exactly what is meant Or rather what is implied The Motown they are invariably thinking of is the label that dominated the charts in the mid 1960s with a succession of radio friendly dance orientated hits most of which were written and produced by the trio of Brian Holland Lamont Dozier and Eddie Holland This period is referred to naturally enough as the Golden Era when Motown was not only the dominant force in its home city of Detroit but carried The Sound of Young America all around the world The kind of music that had them Dancing In the Street from Los Angeles to London Miami to Munich and San Francisco to Sydney It was the kind of music that attracted scores of imitators some good some not so good The kind of music that appealed to the public and presidents alike and still does It was that Motown that this book was intended to be about However when you start digging deeper into the Motown story you realise that throughout its life which for the purposes of this book is its formation in 1959 through to its sale in 1988 it was constantly trying other musical genres looking to grab hits out of jazz country pop rock middle of the road and whatever else might be happening at the time Of course it wasn't particularly successful at some of the other genres although those who claim Motown never did much in the rock market conveniently overlook the healthy sales figures achieved by Rare Earth the group and focus instead on the total sales achieved on Rare Earth the label This book therefore contains biographies of all 684 artists who had releases on Motown and their various imprints as well as biographies of 16 musicians 23 producers 19 writers and 13 executives There are also details of the 50 or so labels that Motown owned licensed to or licensed from All nine films and the 17 soundtracks are also featured Every Motown single and album and EP that made the Top Ten of the pop charts in either the US or UK also have their own entries with 222 singles 84 albums and five EPs being featured Finally there are 36 other entries covering such topics as the Hollywood Walk of Fame the Motortown Revues Grammy Awards and the most played Motown songs on radio The 1 178 entries cover every aspect of Motown and more of the link between Granny in The Beverly Hillbillies and Wonder Woman of the artists from Abbey Tavern Singers to Zulema and the hits from ABC to You Really Got A Hold On Me The Motown Encyclopedia is the story of Motown Records Yesterday Today Forever

Form as Harmony in Rock Music Drew Nobile,2020 Overturning the inherited belief that popular music is unrefined Form as Harmony in Rock Music brings the process based approach of classical theorists to popular music scholarship Author Drew Nobile offers the first comprehensive theory of form for 1960s 70s and 80s classic rock repertoire showing how songs in this genre are not simply a series of discrete elements but rather exhibit cohesive formal harmonic structures across their entire timespan Though many elements contribute to the cohesion

of a song the rock music of these decades is built around a fundamentally harmonic backdrop giving rise to distinct types of verses choruses and bridges Nobile's rigorous but readable theoretical analysis demonstrates how artists from Bob Dylan to Stevie Wonder to Madonna consistently turn to the same compositional structures throughout rock's various genres and decades unifying them under a single musical style Using over 200 transcriptions graphs and form charts *Form as Harmony in Rock Music* advocates a structural approach to rock analysis revealing essential features of this style that would otherwise remain below our conscious awareness **Jet**, 2009

Whom Shall I Fear Ronald Giles, 2021-07-01 I can only hope that the perception of my readers is not that they were being forced some sort of social orientation that I adamantly proclaim to be true I am merely fulfilled and excited in sharing with my reader the fascination of my imagination unleashed by my own thought and perception I still feel small when standing beside an ocean or stand at the foot of some majestic mountain There is absolutely nothing narcissistic about any perceived intellectual value of my material With my thought I am like a kid who has Christmas every day and just can't wait until a session of show and tell at school School being that outlet that provides a platform to adamantly present to the world as they know it a catharsis of grander and emotional joy one thinks will result in an elevated sense of elation in the people she will engage for years to come The initial excitement of such sharing will for many carry over to be the impetus of the great ones Those who will entertain the world with the genius of their writing the inspiration of their music There are others that introduce the world to new and fascination dynamics because scientific discoveries and their ability to collect available resources and ascertain profound ways in which to utilize those resource The mind itself being the apex of such resource and intelligence I am sure that my collection of thought is compilation from the stages of my life that resulted in untapped empirical knowledge and thought I think I became truly infatuated with written expression at a very young age during the time when the record company Motown was at its peak The great Paul Anka wrote a lyric that sent me for a loop He wrote

that memories are times that we barrow to use when we get to tomorrow Where will the world be if discerning people stop sharing their thoughts where will the world be if we all stop or refuse to share our emotional excitement and the gifts of joy that they have encountered What a better way to do so in written expression
