Stories Amy Allen, Anne Marie Kavanagh, Caitríona Ní Cassaithe, 2024-02-01 Every social studies curriculum tells a story. It is increasingly apparent that new stories are needed to guide us through the multiple and intersecting crises that have come to define our times. This accessible volume supports student teachers, teachers, and teacher educators to engage critically with the stories that social studies curricula tell and neglect to tell, particularly those that relate and contribute to the root causes of contemporary social and ecological injustices. A balanced and inclusive curriculum necessitates a broad range of stories and perspectives, not just the master narratives of dominant groups. Incorporating a range of pedagogical approaches and spanning a diversity of themes, from representations of Africa in Chinese textbooks to slavery and the American civil rights movement to refugees and the role of indigenous knowledge systems in addressing climate breakdown, this volume includes and creatively engages with previously marginalized and silenced stories and perspectives. Both practical and theoretical in its approach, it seeks to provoke, meaningfully support, and inspire educators to incorporate alternative stories or counter narratives into their social studies teaching. This unique volume is essential reading for student teachers, teachers, teacher educators, as well as anyone interested in inspiring children and young people to be open-minded, critically engaged, and empathetic agents of change committed to addressing real-world social and ecological injustices. *The Complete Guide to Home Schooling* John Perry, Kathy Perry, 2000-11 Quickly becoming the choice of more and more American families, home schooling a child can be a daunting and exhausting task. When John and Kathy Perry decided to withdraw their sons from public school and teach them at home, they found much information decrying the state of education but little on how to develop a program to ensure academic success. *The Complete Guide to Home Schooling* presents step-by-step instructions for tailoring a curriculum to the individual, integrating academic home schooling with public school extracurricular opportunities, maintaining family energy and peace, and developing diverse community-based enrichment studies. **The Mirror** George Aidoo, 1977-08-19 **Childhood Sexuality and AIDS Education** Deevia Bhana, 2015-08-27 Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence. In countries like South Africa, where AIDS is particularly widespread, it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings. This volume addresses the question of children's understanding of AIDS, not simply in terms of their dependence but as active participants in the interpretation of their social worlds. The volume draws on an interview and ethnographic-based study of young children in two socially diverse South African primary schools, as well as interviews conducted with teachers and mothers of young children. It shows how adults sustain the production of childhood sexual innocence and the importance of scaling up programs in AIDS intervention, gender, and sexuality. It makes significant contributions to the global debate around childhood sexualities, gender, and AIDS education.
