Asylum Weaponry Gatekeeper:

Anti-Immigrantism in Western Democracies Roxanne Lynn Doty, 2003-09-02 This book critically examines the various practises of anti immigrantism in the US the UK and France within the context of globalisation and questions our understanding of the state *Foreign Terrorists in America* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Technology, Terrorism, and Government Information, 1998

They're Not Listening Ryan James Girdusky, Harlan Hill, 2020-06-16 The election of Donald Trump in America and the referendum on European Union membership in the United Kingdom otherwise known as Brexit sent shockwaves throughout the world Cosmopolitan elites across the globe never saw this populist uprising coming and still do not understand it People across the globe have been increasingly voting for national populist politicians over the last twenty years The current nationalist populist revolt started long before Donald Trump came down his golden escalator and even before Prime Minister David Cameron agreed to hold a referendum vote on the EU It wasn't isolated to rundown towns in Northern England or the Midwest and it wasn't solely because of demographic changes ignorance intolerance or a whitelash It was occurring because the elites chose to ignore voters concerns when it came to globalism and neoliberalism Issues like mass immigration war economic inequality and national sovereignty were sacrosanct to neoliberals and ultimately their unwillingness to concede on these issues built discontent among millions of people

Mediterranean in Dis/order Rosita Di Peri, Daniel Meier, 2023-03-07

Mediterranean in Dis order reveals the connection between space and politics by examining the role that space has played in insurgencies conflicts uprisings and mobilities in the Mediterranean region With this approach the authors are able to challenge well established beliefs about the power structure of the state across different disciplines including political science history sociology geography and anthropology and its impact on the conception production and imagination of space in the broader Mediterranean Further they contribute to particular areas of studies such as migration political Islam mobilization and transition to democracy among others The book infusing critical theory unveils original and revelatory case studies in Tunisia Libya Lebanon Turkey Syria Morocco and the EU Mediterranean policy through a various set of actors and practices from refugees and migrations policies to Islamist or students movements architectural sites or movies This multidisciplinary perspective on space and power provides a valuable resource for practitioners interested in how space context and time interact to produce institutions political subjectivities and asymmetries of power particularly since the turning point of the Arab uprisings The book also helps readers understand the conditions under which the uprisings develop giving a clearer picture about various national regional and international dynamics

Migrants, Borders and Global

Capitalism Hannah Cross, 2013-04-17 People from West Africa are risking their lives and surrendering their citizenship rights to enter exploitative labour markets in Europe This book offers an explanation for this phenomenon that is based on close analysis of the contradictory economic and political agendas that create and constrain labour migration It shows how

global capitalism regulates different stages of the process within an interconnected system of economic dispossession the construction of an illegal status border control labour exploitation and processes of underdevelopment This is summarised as a regime of unfree labour mobility Combined with structural and historical approaches this book is based on ethnographic research It incorporates those who are left behind those who decide to stay migrants who fail and those who are on the move alongside clustered migrant communities in Senegal Mauritania and Spain The book s panoramic approach shows how West African step wise journeys to Europe by land and sea sees competing territorial and economic policies regulating an unstable and unpredictable trajectory creating illegal labour through dual logics of border security and selective labour mobility This book demonstrates that the diverse channels through which people migrate in the modern era are mediated by European states and labour markets which utilise border regimes to control labour and be globally competitive The themes and patterns that emerge in their context of inter generational change present a challenge to the accepted wisdom about the individual and household dynamics of labour migration This book is of interest to students and scholars of migration transnationalism politics security development economics and sociology *A New Kind of Containment* ,2009-01-01 This book addresses containment as it relates to interlocking discourses around the War on Terror as a global effort and its link to race and sexuality within the United States The project emerged from the recognition that the events of 11 September 2001 prompted new efforts at containment with both domestic and international implications Critical Security Studies Columba Peoples,Nick Vaughan-Williams,2020-11-29 This textbook introduces students to the sub field of critical security studies through a detailed yet accessible survey of emerging theories and practices This third edition contains two new chapters on Ontological security and In Security and the everyday and has been fully revised and updated Written in an accessible and clear manner Critical Security Studies offers a comprehensive and up to date introduction to critical security studies locates critical security studies within the broader context of social and political theory evaluates fundamental theoretical positions in critical security studies against a backdrop of new security challenges The book is divided into two main parts Part I Approaches surveys the newly extended and contested theoretical terrain of critical security studies constructivist theories Critical Theory feminist and gender approaches postcolonial perspectives poststructuralism and International Political Sociology Ontological security and securitisation theory Part II Issues examines how these various theoretical approaches have been put to work in critical considerations of environmental and planetary security health human security and development information technology and warfare migration and border security in security and the everyday and terror risk and resilience The historical and geographical scope of the book is deliberately broad and each of the chapters in Part II concretely illustrates one or more of the approaches discussed in Part I with clear internal referencing allowing the text to act as a holistic learning tool for students This book is essential reading for upper level students of critical security studies and an important resource for students of international global security political theory and

The Routledge Handbook on Crime and International Migration Sharon Pickering, Julie Ham, 2017-07-14

The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School

Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways

However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants

The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders

The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control

constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats

Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field
