Henry, 1998 The relationship of Christianity to science can best be handled by isolating images of science that influence Christianity Henry defines and then reformulates those images making science more intelligible and Christianity more biblical Then God created the Solar System MJ IntelliChristian, This book was written for people who would like to learn about our Solar System without evolution jammed into every paragraph It's mostly technical information with some discussion Disclaimer This book contains discussion which questions the theory of evolution and long ages associated with it If you are a firm supporter of the theory of evolution please save yourself some bad mood and do not buy this book Cheers everybody Nature and Scripture in the Abrahamic Religions: 1700-Present Scott Mandelbrote, Jitse van der Meer, 2009-01-31 The four companion volumes of Nature and Scripture in the Abrahamic Religions contribute to a contextual evaluation of the mutual influences between scriptural exegesis and hermeneutics on the one hand and practices or techniques of interpretation in natural philosophy and the natural sciences on the other We seek to raise the low profile this theme has had both in the history of science and in the history of biblical interpretation Furthermore questions about the interpretation of scripture continue to be provoked by current theological reflection on scientific theories We also seek to provide a historical context for renewed reflection on the role of the hermeneutics of scripture in the development of theological doctrines that interact with the natural sciences Contributors are J Matthew Ashley Robert E Brown Elizabeth Chmielewski Edward B Davis Henri Wijnandus de Knijff Marwa Elshakry Richard England Menachem Fisch George Harinck Bernhard Kleeberg Scott Mandelbrote G Blair Nelson Alexei V Nesteruk Jitse M van der Meer Rob P W 101 Questions and Answers about Weather and the Bible Donald B. Darwin** Rick Kennedy, 2008-02-01 Written in the genre of Henry David Thoreau s travel thinking essays Jesus History and Mount Darwin An Academic Excursion is the story of a three day climb into the Evolution Range of the High Sierra mountains of California Mount Darwin stands among other mountains near fourteen thousand feet high and that are named after promoters of religious versions of evolutionary thinking Rick Kennedy a history professor from Point Loma uses the climb as an opportunity to think about general education and how both the natural history of evolution and the ancient history of Jesus can find a home in the Aristotelian diversity of university methods Kennedy offers the academic foundations for the credibility and reliability of accounts of Jesus in the New Testament while pointing out that these foundations have the same weaknesses and strengths that ancient history has in general Natural history Kennedy points out has a different set of strengths and weaknesses from ancient history Overall the book reminds students and professors of the wisdom in being Old-Earth Creationism on Trail Tim Chaffey, Dr. Jason Lisle, 2008-07-01 Twenty somethings once faithfully humble attended church What made them stop While most said they still believe that the Bible is God's Word they also said that the idea that the earth is millions of years old was one thing that caused them to doubt the bible The crumbling foundation of the church takes a devastating toll on future generations Therefore churches must reclaim the historical truth found in Genesis and apply the Bible's authority to every area of life Ken Ham President Answers in Genesis As the modern Church struggles to find a place of relevancy for a new generation that already has massive demands on its time and attention more and more young people raised in the Church are leaving it failing to find the answers to their guestions of faith and life beset with doubts raised by issues that the Church chooses not to address Opting to skirt the controversy of Genesis as literal history the biblical authority of the Holy Word is called into question and reduced to a collection of mere stories More popularly considered an issue for schools or in the public realm the conflicting views on the age of the earth also remain a pivotal issue within the Church as it has for over two centuries Was the Creation week literally six days Does science really point to an old earth Does the issue really matter for Christians Should this issue even be discussed within the Church Join authors Dr Jason Lisle and Tim Chaffey as they put forth a case against an old earth interpretation of Scripture A comprehensive biblical theological and scientific critique of old earth creationism the book presents its compelling testimony in layman s terms to create a powerful debate that leads to unquestionable truth Examination Questions in Physical and Political Geography for the Use of Training Colleges, Etc Walter MACLEOD (of the Royal Military Asylum, Chelsea.),1860 The Created Cosmos Danny Faulkner, 2016-07-29 This text investigates what the Bible has to say about astronomical objects and phenomena The Bible contains many mentions of astronomical things beginning with creation and concluding with end time prophecies Besides the sun and moon the Bible names groups of stars Orion the Pleiades and the bears In addition to what the biblical record shows about astronomical phenomena many people think that it teaches things that it actually does not
