Thin Description John L. Jackson Jr.,2013-11-04 The African Hebrew Israelites of Jerusalem are often dismissed as a fringe cult for their beliefs that African Americans are descendants of the ancient Israelites and that veganism leads to immortality But John L Jackson questions what fringe means in a world where cultural practices of every stripe circulate freely on the Internet In this poignant and sophisticated examination of the limits of ethnography the reader is invited into the visionary sometimes vexing world of the AHIJ Jackson challenges what Clifford Geertz called the thick description of anthropological research through a multidisciplinary investigation of how the AHIJ use media and technology to define their public image in the twenty first century Moving beyond the modest witness of nineteenth century scientific discourse or the thick descriptions of twentieth century anthropology Jackson insists that Geertzian thickness is impossible especially in a world where the anthropologist's subjects craft their own self ethnographies and critically consume the ethnographer's offerings Taking as its topic a group situated along the fault lines of several diasporas African American Jewish Thin Description provides an account of how race religion and ethnographic representation must be understood anew in the twenty first century lest we reenact old mistakes in the study of black humanity

Violence and the Genesis of the Anatomical Image Rose Marie San Juan,2022-11-28 Nothing excited early modern anatomists more than touching a beating

heart In his 1543 treatise Andreas Vesalius boasts that he was able to feel life itself through the membranes of a heart belonging to a man who had just been executed a comment that appears near the woodcut of a person being dissected while still hanging from the gallows In this highly original book Rose Marie San Juan confronts the question of violence in the making of the early modern anatomical image Engaging the ways in which power operated in early modern anatomical images in Europe and to a lesser extent its colonies San Juan examines literal violence upon bodies in a range of civic religious pedagogical and exploratory contexts She then works through the question of how bodies were thought to be constituted systemic or piecemeal singular or collective and how gender determines this question of constitution In confronting the issue of violence in the making of the anatomical image San Juan explores not only how violence transformed the body into a powerful and troubling double but also how this kind of body permeated attempts to produce knowledge about the world at large Provocative and challenging this book will be of significant interest to scholars across fields in early modern studies including art history and visual culture science and medicine

The Owner's Manual for Christians

Charles R. Swindoll, 2011-02-14 It's never too late Whether you're a new Christian or you've walked the road for decades it's never too late to find the critical truths that make life make sense We often start out believing that common sense will be enough that we're prepared for the road ahead with our good values and quick thinking It doesn't take long to learn otherwise A broken friendship An obsessive career Financial distress Even empty success We come back to God searching for insight for hope And He provides Nothing can replace studying the Bible Best selling author and pastor Charles Swindoll has spent decades studying its pages and teaching its precepts But if sixty six books seem overwhelming The Owner's Manual for Christians is the perfect starting place a biblical summary of the major truths that anchor the Christian life From grace to freedom these chapters walk the reader through the keys to a life well lived drawn from the Creator of life itself Life is often confusing but it does not have to be impossible Read The Owner's Manual for Christians and find hope for the road ahead

The Land Grabbers Fred Pearce, 2012-05-29 How Wall Street Chinese billionaires oil sheiks and agribusiness are buying up huge tracts of land in a hungry crowded world An unprecedented land grab is taking place around the world Fearing future food shortages or eager to profit from them the world's wealthiest and most acquisitive countries corporations and individuals have been buying and leasing vast tracts of land around the world The scale is astounding parcels the size of small countries are being gobbled up across the plains of Africa the paddy fields of Southeast Asia the jungles of South America and the prairies of Eastern Europe Veteran science writer Fred Pearce spent a year circling the globe to find out who was doing the buying whose land was being taken over and what the effect of these massive land deals seems to be The Land Grabbers is a first of its kind exposé that reveals the scale and the human costs of the land grab one of the most profound ethical environmental and economic issues facing the globalized world in the twenty first century The corporations speculators and governments scooping up land cheap in the developing world claim that industrial scale farming will help

local economies But Pearce s research reveals a far more troubling reality While some mega farms are ethically run all too often poor farmers and cattle herders are evicted from ancestral lands or cut off from water sources The good jobs promised by foreign capitalists and home governments alike fail to materialize Hungry nations are being forced to export their food to the wealthy and corporate potentates run fiefdoms oblivious to the country beyond their fences Pearce s story is populated with larger than life characters from financier George Soros and industry tycoon Richard Branson to Gulf state sheikhs Russian oligarchs British barons and Burmese generals We discover why Goldman Sachs is buying up the Chinese poultry industry what Lord Rothschild and a legendary 1970s asset stripper are doing in the backwoods of Brazil and what plans a Saudi oil billionaire has for Ethiopia Along the way Pearce introduces us to the people who actually live on and live off of the supposedly empty land that is being grabbed from Cambodian peasants victimized first by the Khmer Rouge and now by crony capitalism to African pastoralists confined to ever smaller tracts Over the next few decades land grabbing may matter more to more of the planet s people than even climate change It will affect who eats and who does not who gets richer and who gets poorer and whether agrarian societies can exist outside corporate control It is the new battle over who owns the planet

Vladimir Sorokin's Discourses Dirk Uffelmann,2020-04-21 Vladimir Sorokin is the most prominent and the most controversial contemporary Russian writer Having emerged as a prose writer in Moscow s artistic underground in the late 1970s and early 80s he became visible to a broader Russian audience only in the mid 1990s with texts shocking the moralistic expectations of traditionally minded readers by violating not only Soviet ideological taboos but also injecting vulgar language sex and violence into plots that the postmodernist Sorokin borrowed from nineteenth century literature and Socialist Realism Sorokin became famous when the Putin youth organization burned his books in 2002 and he picked up neo nationalist and neo imperialist discourses in his dystopian novels of the 2000s and 2010s making him one of the fiercest critics of Russia s new middle ages while remaining steadfast in his dismantling of foreign discourses

Why We Fail Victor Lombardi,2013-07-15 Just as pilots and doctors

improve by studying crash reports and postmortems experience designers can improve by learning how customer experience failures cause products to fail in the marketplace Rather than proselytizing a particular approach to design Why We Fail holistically explores what teams actually built why the products failed and how we can learn from the past to avoid failure ourselves Going Out with Knots Wendy I. Zierler, 2025 Named a My Most Anticipated Books 2025 by Zibby Owens Interweaving memoir with Hebrew poetry Going Out with Knots illuminates author Wendy I Zierler's literary and personal Jewish mourning journey in the aftermath of unremitting personal loss She begins with her story the death of both her parents in one year the challenges she faced as a woman saying Kaddish in an Orthodox synagogue and her decision to teach a weekly class on modern Hebrew poems that address grief prayer and God wrestling Each subsequent chapter delves into the works of a different modern Hebrew poet Lea Goldberg Avraham alfi Yehuda Amichai Rachel Morpurgo Rachel Bluwstein Ruhama Weiss and Amir Gilboa in the order in which she translated interpreted and taught their poems many translated into English for the first time Each poet like Zierler comes to writing deeply connected to Jewish tradition and yet at odds with it too Ultimately Going Out with Knots reflects on how a woman living in a Modern Orthodox community can claim a place in the male centered rituals that Jewish tradition prescribes for mourning and how immersion in modern Hebrew poetry can respond deeply to both communal COVID 19 October 7 as well as personal losses offering a new form of theology and Torah

Air-Sea Interaction and Oceanic Extremes Lichuan Wu, Jinbao Song, Victor Alari, Leonie Esters, 2024-12-24 Air sea interactions control the exchange of mass momentum and heat between the atmosphere and the ocean Substantially they significantly affect the development of atmospheric and oceanic systems from submesoscale to global scales Oceanic extremes i.e. cyclones storms freak waves polar lows storm surge etc pose a significant hazard to offshore activities and coastal society Air sea interaction processes are complex and play a central role in the development of those oceanic extremes Improved understanding of the air sea interaction processes and describing them in weather models and Earth System Models can improve their prediction and mitigate the potential damages The energy distribution affected by air sea interactions can change the large scale circulation and alter the climatology of the oceanic extremes Despite an overall improvement in the understanding of air sea interactions there are still many knowledge gaps particularly under extreme conditions Models of the Teacher in Biblical Texts and Their Reception Bart J. Koet, Gearard O Floinn, Archibald L. H. M. van Wieringen, 2025-09-29 What makes a good teacher From Socrates to John Dewey educators have long sought to define the essence of teaching and learning Yet one rich tradition often overlooked in these discussions is the biblical tradition In Models of the Teacher in Biblical Texts and Their Reception readers are invited to explore a vibrant tapestry of biblical figures and texts that have shaped challenged and inspired generations of learners This volume offers a unique series of encounters with biblical teachers and those who have engaged with their teachings throughout history Considering a wide array of roles lecturer writer pastor or even an imaginative medium like a computer game the book presents a colorful

palette of teaching models These diverse approaches not only reflect the dynamic nature of education but also offer enduring inspiration for educators and learners today
