The current AP Art History exam includes approximately 500 works of art analyzed from a historical perspective. A redesign planned for release for the 2015-2016 school year emphasizes critical analysis of works of art and understanding of relationships among global artistic traditions. The new curriculum for the AP Art History course includes fewer works of art, reducing the total number included in the class from 500 to 250 and incorporates a slightly higher percentage of non-Western works of art. While there are some changes to the overall content and structure of the exam, the skills and focus of the course and exam are largely unchanged. This review guide is intended to meet the needs of students testing in 2014, 2015, 2016, and beyond. This AP Art History exam cuts through the clutter and eliminates the fluff found in other study guides. This results in more effective time, which in turn means higher scores on the test. Includes a FULL LENGTH AP Art History practice test for all concepts.

Zerffi embarks on an extensive exploration of art's evolution, meticulously tracing its journey from ancient civilizations to modern times. Through a blend of analytical rigor and descriptive eloquence, Zerffi captures the shifting paradigms of artistic expression, highlighting pivotal movements, techniques, and notable figures who have defined the art landscape. The book is structured chronologically, allowing readers to appreciate the cultural and historical contexts that influenced each era's aesthetic choices, while Zerffi's keen insight into art theory enriches the discourse surrounding the pieces discussed. G. G. Zerffi, a prominent art historian and critic, has dedicated his career to the rigorous study of artistic movements and their sociocultural implications. His academic background, infused with a passion for both the history and critique of art, naturally led him to compile this comprehensive manual. Zerffi's travels and encounters with diverse artistic traditions have deeply informed his perspective, fostering a nuanced understanding that resonates throughout this work. This text is highly recommended for both students and enthusiasts of art history, as it provides a thorough grounding in the subject while stimulating a greater appreciation for the intricacies and interconnections within the art world. The Memory of Architecture in Edith Wharton's Travel Writings Ágnes Zsófia Kovács, 2024-09-13 Edith Wharton was not only the author of novels and short stories but also of drama, poetry, autobiography, interior decoration, and travel writing. This study focuses on Wharton's symbolic representations of architecture in her travel writings. It shows how a network of allusions to travel writing and art history books influenced Wharton's representations of architectural and natural spaces. The book demonstrates Wharton's complex relationship to works of art, historians John Ruskin, Miles, and Arthur C. Porter, and travel authors Wolfgang Goethe, Henry Adams, and Henry James in the trajectory of her travel writing. Kovács surveys how the acknowledgment of Wharton's sources sheds light both on the author's model of aesthetic understanding and scenic architectural descriptions and how the shock of the Great War changed Wharton's travel destinations but not her symbolic view of architecture as a mediator of things past. Wharton's symbolic representations of architecture provide a new key to her
