Also the four basic arithmetic operations can usually not be performed exactly. During the last years research in different areas has been intensified in order to overcome these problems. LEDA Library by K Mehlhorn et al. Exact arithmetic with real numbers by A Edalat et al. Symbolic algebraic methods verification methods. The latest development is the combination of symbolic algebraic methods and verification methods to so called hybrid methods. This book contains a collection of worked out talks on these subjects given during a Dagstuhl seminar at the Forschungszentrum für Informatik Schloss Dagstuhl Germany presenting the state of the art.
