The Kabbalah Tree Rachel Pollack, 2004 2005 Coalition of Visionary Resources COVR 2nd Runner Up in Non Fiction category Kabbalah's most famous symbol the Tree of Life has become the organizing principle behind our human efforts to understand the world Using Hermann Haindl's lush depiction of the Tree of Life Rachel Pollack examines the message behind this ancient symbol She takes a non denominational approach drawing

upon unusual sources such as tribal and shamanic traditions modern science contemporary Kabbalists tarot interpreters and a comic book writer to explore the Tree s meaning Along the way we learn more about Kabbalah s history texts mystical concepts and why this esoteric tradition has sprung up again in the twenty first century **Kabbalah For Dummies** Arthur Kurzweil,2006-11-06 See how ancient Jewish mystical traditions and rituals can transform your life Kabbalah For Dummies presents a balanced perspective of Kabbalah as an umbrella for a complex assemblage of mystical Jewish teachings and codification techniques Kabbalah For Dummies also shows how Kabbalah simultaneously presents an approach to the study of text the performance of ritual and the experience of worship as well as how the reader can apply its teaching to everyday life The Image of the Feminine in the Poetry of W.B. Yeats and Angelos Sikelianos Anastasia Psoni,2018-12-19 Modernism as a powerful movement saw the literary and artistic traditions as well as pure science starting to evolve radically creating a crisis even chaos in culture and society Within this chaos myth offered an ordered picture of that world employing symbolic and poetic images Both W B Yeats and Angelos Sikelianos embraced myth and symbols because they liberate imagination and raise human consciousness bringing together humans and the cosmos Being opposed to the rigidity of scientific materialism that inhibits spiritual development the two poets were waiting for a new age and a new religion expecting that they themselves would inspire their community and usher in the change In their longing for a new age archaeology was a magnetic field for Yeats and Sikelianos as it was for many writers and thinkers After Sir Arthur Evans s discovery of the Minoan Civilization where women appeared so peacefully prominent the dream of re creating a gynocentric mythology was no longer a fantasy In Yeats s and Sikelianos s gynocentric mythology the feminine figure appears in various forms and like in a drama it plays different roles Significantly a gynocentric mythology permeates the work of the two poets and this mythology is of pivotal importance in their poetry their poetics and even in their life as the intensity of their creative desire brought to them female personalities to inspire and guide them Indeed in Yeats s and Sikelianos s gynocentric mythology the image of the feminine holds a place within a historical context taking the reader into a larger social political and religious space **The Kabbalistic Mirror of Genesis** David Chaim Smith,2015-09-17 A bold line by line reexamination of the first 3 chapters of Genesis that reveals the essential nature of mind and creativity Deconstructs each line of Genesis chapters 1 3 with esoteric methods derived from the oral teachings of the Kabbalah Reveals the sefirot the Tree of Life as the Divine blueprint of the creative process Explains how Genesis reveals the Divinity of mind and consciousness Hidden within the first three chapters of Genesis rests one of the greatest jewels of Western mystical literature For millennia religious literalism has dominated our understanding of the Bible imprisoning its subtle inner wisdom within the most coarse and superficial aspects of the narrative Generations have been led to believe that Genesis 1 3 is only a primitive proto cosmic history a mythological explanation of the human moral disposition a religious fairy tale But by accepting the text as pure kabbalistic metaphor the mystical content of Genesis springs forth revealing the Divine nature of creativity as well as a new understanding of the

human mind Deconstructing each line of Genesis 1-3 with esoteric methods derived from the oral teachings of the Kabbalah David Chaim Smith reveals how the ten sefirot collectively known as the Tree of Life are not simply a linear hierarchy They are a unified interdependent whole with ten interactive functions forming the template through which creative diversity manifests Through acts of creation and creativity the mind expresses its Divine nature Through our Divine creative power we are able to touch upon Ain Sof the infinite the lifeblood of all creative expression Smith's line by line examination of Genesis 1-3 reveals a complete model not only of Divine creativity but also of the predicament of the human mind of the Divine nature of consciousness as well as our inability to recognize the mind's Divinity With this new interpretation which removes the concept of a Creator God we are able to transcend the contrasting notions of being and non being at the heart of conventional habits of perception and awaken a new mystical understanding of Unity and the fathomless depth of Divinity

The Kabbalistic Culture of Eighteenth-Century Prague Sharon Flatto, 2015-09-03 Sharon Flatto's comprehensive study offers the first systematic overview of the eighteenth century Jewish community of Prague and the first critical account of the life and thought of its pre eminent rabbinic authority Ezekiel Landau Her detailed analysis firmly rooted in the historical and cultural context of the period challenges the conventional portrayal of Landau as a staunch opponent of esoteric practices and reveals the centrality of kabbalistic thought in this key central European city Kabbalistic Writings on the Nature of Masculine & Feminine Sarah Schneider, 2001 This book not only publicizes Jewish texts that are indisputably authoritative but also enables people who do not have the skills or resources to access this experience on their own to directly encounter kabbalistic source material Its luminous wisdom is sure to inspire a respect and affection for the Torah and its traditions In *Kabbalistic Writings on the Nature of Masculine and Feminine* the texts speak for themselves Their authoritative voices are the soul and might of this work As proof texts they verify statements made in their name and as holy texts they transform all who take them to heart **On malevolent bewitchments and venomous magic** Eliphas Levi, Helena Petrovna Blavatsky, Paracelsus, 2022-07-07 Bewitchment whether voluntary or involuntary physical or moral is a homicide and the more infamous because it eludes self defence by the victim and punishment by law Moral maladies are far more contagious than physical Some triumphs of infatuation are comparable to leprosy or cholera Bewitchment by means of currents is exceedingly common morally as well as physically most of us are carried away by the crowd Absolute hatred unleavened by rejected passion or personal cupidity is a death sentence for its object Black magic is a graduated combination of sacrileges and murders designed for the perversion of the human will It is the religion of the devil the cultus of darkness and the hatred of good carried to the height of paroxysm Not only do the wicked torment the good but the good torture the wicked unconsciously We may die through love as well as through hate for there are absorbing passions under the breath of which we feel depleted like the spouses of vampires Antipathy is the presentiment of a possible bewitchment either of love or hatred for we find love frequently succeeding repulsion Instantaneous sympathies and electric infatuations are explosions of

the astral light which is akin to the discharge of strong magnetic batteries Bewitchment by a will persistently confirmed in ill doing cannot be pulled back without risk of death The spell may be staved off by substitution or deflection of the astral current But the sorcerer who releases a spell must have another object for his malevolence or he himself will perish by his own spell because every poisoned magnetic emission that cannot reach its target will return with force to its point of departure Virtue is one of the elixirs of long life and well being While vice is hid by hypocrisy virtue is suspected to be hypocrisy Sorcery whether by spells or love potions is venomous magic We write not to instruct but to warn Sorcerers are often poor country folks repulsed by all and therefore afflicted by enduring bitterness The fear which they inspired was their consolation and their revenge Magical emblems and characters engraved on amulets and talismans are relics of old religious rites the meaning of which is no longer understood Only harmlessness and brotherhood in thought and deed coupled with non resistance to evil can shield us from evil Real protection comes from personal merit and virtue not from talismans Nought is permitted to the virtuous man Love above all in a woman is a veritable hallucination for want of a prudent motive it will frequently select an absurd one Cyanide when not lethal will enfeeble the mind already poisoned by an evil will Stay clear of bitter almonds as well as the kernels of apricot peach and cherry almond flavour extracts such as Amaretto almond milk soaps and perfumes Datura stramonium and other hallucinogens Tobacco by smoking or otherwise is a dangerous and stupefying philtre and brain poison Nicotine is not less deadly than cyanide Moreover the latter is present in tobacco in larger quantities than in bitter almonds But the most terrific of all philtres is the exaltation of misdirected devotion By fuelling the imagination excessive fear becomes a self fulfilling prophecy Goodness is much stronger than evil Rise then above childish fears and dumb desires Stamp out evil influence by controlling unbridled imagination and fanciful speculation Believe in supreme wisdom for true wisdom cannot ensnare your intelligence Poisons can may make you ill but never immoral Weakness sympathises with vice because vice itself is a weakness that assumes the mask of strength Madness holds reason in horror and delights in the exaggerations of falsehood Every human being whether magus or not should oppose violence by mildness chastise evil by good cruelty by tenderness There can be nothing more dangerous than to make magic a pastime or part of an evening s entertainment Magnetic experiments performed under such conditions can only exhaust the subjects mislead opinions and defeat science The milder and calmer you are the more effective will be your anger the more energetic you are the more precious will be your forbearance the more skilful you are the better will you profit by your intelligence and even by your virtues the more indifferent you are the more easily will you make yourself loved Excessive love produces antipathy blind hate counteracts and scourges itself vanity leads to abasement and the most cruel humiliations Remember that the magus is sovereign and a sovereign never avenges because he has the right to punish in the exercise of this right he performs his duty and is implacable as justice The way to see clearly is not to be always looking and he who spends his whole life upon a single object will not attain it Ceremonies are methods to create a habit of will however

redundant when the habit is firmly established We will now expose and stigmatise some of the most abhorrent acts What sorcerers seek above all in their evocations of the impure spirit is that magnetic power which is the possession of the true adept so that they can shamefully abuse it Providence seems to scorn those who despise the martyrs and to slay those who would deprive them of life The terrible menace of hell inflicted by Christianity upon its flock has created more nightmares more nameless diseases more furious madness than all vices and excesses combined That is what the Hermetic artists of the middle ages represented by the incredible and unheard of monsters which they carved at the doors of basilicas Moral equilibrium rests upon the immutable distinction between true and false good and bad one must place himself by his works in the empire of truth and goodness or relapse eternally like the rock of Sisyphus into a pandemonium of falsehood and evil Wash carefully your clothes before giving them away In times of epidemic the terror struck are the first to be attacked The secret of not fearing evil is to ignore it altogether The wise men have scarcely any sorceries to fear save those of fortune but when called upon to advise they must persuade the bewitched to do some act of goodness to his bewitcher to render him some service which he cannot refuse and lead him to the communion of salt The chemist imitates nature the alchemist surpasses nature herself Chemistry decomposes and recombines material substances it purifies simple substances of foreign elements but leaves the primitive elements unchanged Alchemy changes the character of things and raises them up into higher states of existence As all the powers of the universe are potentially contained in us our body and its organs are the representatives of the powers of nature and a constellation of the same powers that formed the stars in the sky

The four Adams of the Kabbalah revealed Helena Petrovna Blavatsky,2018-08-07 The original Kabbalah was entirely metaphysical the later Kabbalah has suffocated the divine ideal under the heavy phallic element

The Secret Doctrine of the Kabbalah Leonora Leet,1999-08 The Secret Doctrine of the Kabbalah resurrects this ancient body of knowledge to reveal eternal truths that profoundly impact contemporary spirituality Experimental methods of practicing Hebraic sacred science are explored that explain as never before the meaning of the cosmological diagram of the entire Western esoteric tradition the kabbalistic Tree of Life

The Enneagram and Kabbalah (2nd Edition) Rabbi Howard A. Addison,2012-01-09 An updated and

expanded examination into the groundbreaking exploration and connection of two of the most powerful mystical traditions. Patterns in our lives may escape us; reasons for our behavior often confuse us. To help us better understand the interplay of these dynamics, Rabbi Howard A. Addison combines two of the most powerful maps of consciousness known to humanity: the Tree of Life, the sefirot from the Jewish mystical tradition of Kabbalah, and the nine-pointed Enneagram that was developed over several generations by mystics of several spiritual traditions. Individually, each offers guidance and wisdom; together, they show the forces that propel us and shape our personalities and behavior. Most important, the two suggest how we can live more harmoniously with ourselves and with others, minimize friction and tension, and discover our own spiritual gateway to God. In this updated and expanded edition of his pioneering book, Rabbi Addison explores new understandings of the stages and pitfalls we experience along life's journey and the ways we can transcend the limits of our personalities in search of greater wholeness. He shows that when brought together, the Enneagram and Kabbalah may enhance understanding of humanity's deepest motivations, both individually and collectively, thus opening wider the gate to personal growth.
