Whitmeyer,David W. Mogk,Eric J. Pyle,2009-01-01 Field instruction has traditionally been at the core of the geoscience curriculum The field experience has been integral to the professional development of future geoscientists and is particularly important as it applies to student understanding of spatial temporal and complex relations in the Earth system As important as field experiences have been to geosciences education and the training of geoscientists the current situation calls for discipline wide reflection of the role of field experiences in the geoscience curriculum in light of practical and logistical challenges evolution in employment opportunities for geoscientists and changing emphases in the geoscience curriculum This volume seeks to broaden participation in field instruction by showcasing diverse approaches to teaching in the field across the many geo disciplines encompassed by GSA books google **Northern Emporium** Søren M. Sindbæk,2022-07-01 In the early Middle Ages a network of maritime trading towns emporia emerged along the northern coasts of Europe These early urban sites are among archaeology s most notable contributions to our knowledge of the period between the disintegration of the Western Roman Empire and the growth of a maritime oriented world in the Viking Age Ribe on the western coast of Denmark is one of these sites In 2017 18 the Northern Emporium research project conducted seminal research excavations which provided new foundations for the study of this nodal point between Western Europe Scandinavia and the world beyond This first volume presents the results of these excavations and analyses to piece together the history of the emporium and its social fabric The research employs novel high definition methods to explore the networks of the site integrating an extensive use of geoarchaeology and 3D stratigraphic recording with intensive environmental sampling and artefact recovery resulting in more than 100 000 artefact finds The results transform our understanding of key points of the early history of the North Sea region Through the remains of dwellings and workshops the traces left by traders sailors weavers tailors comb makers and skilled producers of glass beads and metal ornaments we follow the creation of Viking Age social networks along with some of the most iconic artistic products of this world and the daily lives of some of its notable inhabitants The Electronic Chart Horst Hecht,2006 *Digital Geoarchaeology* Christoph Siart,Markus Forbriger,Olaf Bubenzer,2017-12-03 This book focusses on new

technologies and multi method research designs in the field of modern archaeology which increasingly crosses academic boundaries to investigate past human environmental relationships and to reconstruct palaeolandscapes It aims at establishing the concept of Digital Geoarchaeology as a novel approach of interdisciplinary collaboration situated at the scientific interface between classical studies geosciences and computer sciences Among others the book includes topics such as geographic information systems spatiotemporal analysis remote sensing applications laser scanning digital elevation models geophysical prospecting data fusion and 3D visualisation categorized in four major sections Each section is introduced by a general thematic overview and followed by case studies which vividly illustrate the broad spectrum of potential applications and new research designs Mutual fields of work and common technologies are identified and discussed from different scholarly perspectives By stimulating knowledge transfer and fostering interdisciplinary collaboration Digital Geoarchaeology helps generate valuable synergies and contributes to a better understanding of ancient landscapes along with their forming processes Chapters 1 2 6 8 and 14 are published open access under a CC BY 4 0 license at link.springer.com *Government Reports Annual Index* ,1993 [A Practical Introduction to Human-in-the-Loop Cyber-Physical Systems](#) David Nunes,Jorge Sa Silva,Fernando Boavida,2017-11-08 The first book focusing on one of the hottest new topics in Internet of Things systems research and development Studies estimate that by 2020 we will have a vast Internet of Things IoT network comprising 26 billion connected devices including everything from light bulbs to refrigerators coffee makers to cars From the beginning the concept of cyber physical systems CPS or the sensing and control of physical phenomena through networks of devices that work together to achieve common goals has been implicit in the IoT enterprise This book focuses on the increasingly hot topic of Human in the loop Cyber Physical Systems HiTLCPS CPSs that incorporate human responses in IoT equation Why have we not yet integrated the human component into CPSs What are the major challenges to achieving HiTLCPS How can we take advantage of ubiquitous sensing platforms such as smartphones and personal devices to achieve that goal While mature HiTLCPS designs have yet to be achieved or a general consensus reached on underlying HiTLCPS requirements principles and theory researchers and developers worldwide are on the cusp of realizing them With contributions from researchers at the cutting edge of HiTLCPS R D this book addresses many of these questions from the theoretical and practical points of view An essential primer on a rapidly emerging Internet of Things concept focusing on human centric applications Discusses new topics which until now have only been available in research papers scattered throughout the world literature Addressed fundamental concepts in depth while providing practical insights into the development of complete HiTLCPS systems Includes a companion website containing full source code for all of the applications described This book is an indispensable resource for researchers and app developers eager to explore HiTL concepts and include them into their designs It is also an excellent primer for advanced undergraduates and graduate students studying IoT CPS and HiTLCPS *Far/aim 2010* Federal Aviation Administration,2009-10 Adhering to a reputation
