Faulkner, 2012-04-09 This important new history of the development of a leadership corps of officers during World War I opens with a gripping narrative of the battlefield heroism of Cpl Alvin York juxtaposed with the death of Pvt Charles Clement less than two kilometers away Clement had been a captain and an example of what a good officer should be in the years just before the beginning of the war His subsequent failure as an officer and his redemption through death in combat embody the question that lies at the heart of this comprehensive and exhaustively researched book What were the faults of US military policy regarding the training of officers

during the Great War In The School of Hard Knocks Richard S Faulkner carefully considers the selection and training process for officers during the years prior to and throughout the First World War He then moves into the replacement of those officers due to attrition ultimately discussing the relationship between the leadership corps and the men they commanded Replete with primary documentary evidence including reports by the War Department during and subsequent to the war letters from the officers detailing their concerns with the training methods and communications from the leaders of the training facilities to the civilian leadership The School of Hard Knocks makes a compelling case while presenting a clear highly readable no nonsense account of the shortfalls in officer training that contributed to the high death toll suffered by the American Expeditionary Forces in World War I

The Ship That Would Not Die Stephen Curley,2011-09-01 Starting its life as an attack transport in World War II and one of the last five left afloat by war s end the USS Queens saw action at Iwo Jima and other hot spots in the Pacific theater After the war the ship became the SS Excambion one of the Four Aces of American Export Lines the only fully air conditioned ships in the world at the time In 1965 the versatile Excambion underwent yet another transformation into a floating classroom Recommissioned as the USTS Texas Clipper the ship began a third life as a merchant marine training vessel with its home port in Galveston For the next three decades the Texas Clipper would be home to merchant marine cadets and by the time it was retired in 1996 it was the oldest active ship in the U S merchant marine fleet Finally the Texas Clipper after protracted bureaucratic wrangling was designated to be sunk in the Gulf of Mexico as an artificial reef to provide habitat for marine life In 2007 the ship was towed to its final resting place seventeen nautical miles off the coast of South Padre Island Now 136 feet below the surface the venerable Texas Clipper lives on as the home to a wide variety of underwater species Filled not only with meticulously researched technical and historical data about the ship s construction service record crew procedures and voyages The Ship That Would Not Die also features lively anecdotes from crew members passengers and officers More than 140 color and black and white photos illustrate the ship s construction its wide variety of shipboard life the exacting process of making the Texas Clipper ready to become an artificial reef and its final sinking in the Gulf of Mexico
