

The background of the entire slide is a photograph of a classroom. In the foreground, several students' hands and arms are visible as they sit at desks, writing in notebooks with pencils. The students are out of focus, and the focus is on the text overlaid on the image. The lighting is bright, and the overall atmosphere is that of a busy, active learning environment.

Structural Racism Stephen Menendian,2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry A must read for advocates students policymakers and researchers alike
