Peña**

Alfred The Great War Kingship And Culture In Anglo Saxon England:

Alfred the Great Richard Abels, 2013-11-26 This biography of Alfred the Great king of the West Saxons 871 899 combines a sensitive reading of the primary sources with a careful evaluation of the most recent scholarly research on the history and archaeology of ninth century England Alfred emerges from the pages of this biography as a great warlord an effective and inventive ruler and a passionate scholar whose piety and intellectual curiosity led him to sponsor a cultural and spiritual renaissance Alfred's victories on the battlefield and his sweeping administrative innovations not only preserved his native Wessex from viking conquest but began the process of political consolidation that would culminate in the creation of the kingdom of England Alfred the Great War Kingship and Culture in Anglo Saxon England strips away the varnish of later interpretations to recover the historical Alfred pragmatic generous brutal pious scholarly within the context of his own age

Alfred the Great Richard Philip Abels, 1998 During his reign 871 899 King Alfred revolutionized the governance of Wessex advancing the process that would end in the creation of the kingdom of England This book offers an analysis of Alfred's achievement

Anglo-Saxon England: Volume 35 Malcolm Godden, Simon Keynes, 2008-01-17 Anglo Saxon England is the only publication which consistently embraces all the main aspects of study of Anglo Saxon history and culture linguistic literary textual palaeographic religious intellectual historical archaeological and artistic and which promotes the more unusual interests in music or medicine or education for example Articles in volume 35 include Record of the twelfth conference of the International Society of Anglo Saxonists at Bavarian American Centre University of Munich 1 6 August 2005 Virgil the Grammarian and Bede a preliminary study Knowledge of wheel dyes and pigments in Anglo Saxon England The representation of the mind as an enclosure in Old English poetry The origin of the numbered sections in Beowulf and in other Old English poems An ethnic dating of Beowulf Hrothgar's horses feral or thoroughbred the thryth of Ely in a lost calendar from Munich Alfred's epistemological metaphors eagan modes and scip modes Bibliography for 2005

The Culture of Translation in Anglo-Saxon England Robert Stanton, 2002 Translation was central to Old English literature as we know it Most Old English literature in fact was either translated or adapted from Latin sources and this is the first full length study of Anglo Saxon translation as a cultural practice This culture of translation was characterised by changing attitudes towards English at first a necessary evil it can be seen developing increasing authority and sophistication Translation's pedagogical function already visible in Latin and Old English glosses flourished in the centralizing translation programme of the ninth century translator king Alfred and English translations of the Bible further confirmed the respectability of English while in the late tenth century translation theory transformed principles of Latin composition into a new and vigorous language for English preaching and teaching texts The book will integrate the Anglo Saxon period more fully into the longer history of English translation ROBERT STANTON is Assistant Professor of English Boston College Massachusetts

Anglo-Saxon England: Volume 30 Michael Lapidge, Malcolm Godden, Simon Keynes, 2002-07-12 The pre

eminence of Anglo Saxon England in its field can be seen as a result of its encouragement of interdisciplinary approaches to the study of all aspects of Anglo Saxon culture Thus this volume includes an important assessment of the correspondence of St Boniface in which it is shown that the unusually formulaic nature of Boniface s letters is best understood as a reflex of the saint s familiarity with vernacular composition A wide ranging historical contextualization of The Letter of Alexander to Aristotle illuminates the way English readers of the later tenth century may have defined themselves in contradistinction to the monstrous unknown and a fresh reading of the gendering of female portraiture in a famous illustrated manuscript of the Psychomachia of Prudentius CCCC 23 shows the independent ways in which Anglo Saxon illustrators were able to respond to their models The usual comprehensive bibliography of the previous year s publications rounds off the book and a full index of the contents of volumes 26 30 is provided Previous indexes have appeared in volumes 5 10 15 20 and 25 *The Medieval Way of War* Gregory I. Halfond, 2016-03-09 Few historians have argued so forcefully or persuasively as Bernard S Bachrach for the study of warfare as not only worthy of scholarly attention but demanding of it In his many publications Bachrach has established unequivocally the relevance of military institutions and activity for an understanding of medieval European societies politics and mentalities In so doing as much as any scholar of his generation he has helped to define the status quaestionis for the field of medieval military history The Medieval Way of War Studies in Medieval Military History in Honor of Bernard S Bachrach pays tribute to its honoree by gathering in a single volume seventeen original studies from an international roster of leading experts in the military history of medieval Europe Ranging chronologically from Late Antiquity through the Later Middle Ages ca AD 300 1500 and with a broad geographical scope stretching from the British Isles to the Middle East these diverse studies address an array of critical themes and debates relevant to the conduct of war in medieval Europe These themes include the formation and implementation of military grand strategies the fiscal material and administrative resources that underpinned the conduct of war in medieval Europe and religious legal and artistic responses to military violence Collectively these seventeen studies embrace the interdisciplinarity and topical diversity intrinsic to Bachrach s research Additionally they strongly echo his conviction that the study of armed conflict is indispensable for an accurate and comprehensive understanding of medieval European history *The Kings of Wessex* Michael John Key, 2025-06-15 Charts the changing fortunes of Wessex and its rise to become the most powerful of the Anglo Saxon kingdoms **The King's English** Nicole Guenther Discenza, 2012-02-01 In the late ninth century while England was fighting off Viking incursions Alfred the Great devoted time and resources not only to military campaigns but also to a campaign of translation and education unprecedented in early medieval Europe The King s English explores how Alfred s translation of Boethius s Consolation of Philosophy from Latin into Old English exposed Anglo Saxon elites to classical literature history science and Christian thought More radically the Boethius as it became known told its audiences how a leader should think and what he should be providing models for leadership and wisdom that live on in England to this day It

also brought prestige to its kingly translator and enshrined his dialect West Saxon as the literary language of the English people Nicole Guenther Discenza looks at the sources Alfred used in his translation and demonstrates his selectivity in choosing what to retain what to borrow and how to represent it to his Anglo Saxon audience Alfred's appeals to Latin prestige spiritual authority Old English poetry and everyday experience in England combine to make the Old English Boethius a powerful text and a rich source for our understanding of Anglo Saxon literature culture and society *The Oxford Encyclopedia of Medieval Warfare and Military Technology* Clifford J. Rogers, 2010 From the Viking invasions to the Crusades to the Hundred Years War wars were crucial agents of change in medieval Europe They fostered many economic and political changes They also affected the science technology religion and culture of the parties involved Examines all aspects of warfare and military technology in medieval times and provides an exhaustive and accurate view of how and why wars were waged throughout Europe the Byzantine Empire and the Crusader States from circa 500 CE to circa 1500 The Cultural Power of Medieval Monarchy Manuel Alejandro Rodríguez de la Peña, 2023-09-22 This book focuses on why the diffusion of the political theology of royal wisdom created Solomonic princes with intellectual interests all around the medieval West and how these learned rulers changed the face of Western Europe through their policies and the cultural power of medieval monarchy Princely wisdom narratives have been seen simply as a tool of royal propaganda in the Middle Ages but these narratives were much more than propaganda being rather a coherent ideology which transformed princely courts shaped mentalities and influenced key political decisions This cultural power of medieval monarchy was channelled mainly through princely patronage of learning and the arts but the rise of administrative monarchy and its bureaucracy are equally related to these policies This can only be understood through a cultural approach to the history of medieval politics that is a history of the relationship between knowledge and power in the Middle Ages a topic much analyzed regarding the medieval church but sometimes neglected in the princely sphere This volume is a study that supplies an important comparative study of the reception in princely courts of a key aspect of European medieval civilization The ideal of Christian sapiential rulership and its corollary rationality in government This volume is essential reading for students and scholars interested in understanding the medieval roots of the cultural process which gave rise to the modern state *King Alfred's Book of Laws* Todd Preston, 2014-01-10 During the early Middle Ages King Alfred reigned 871-99 gained fame as the ruler who brought learning back to England after decades of Viking invasion Although analysis of Alfred's canon typically focuses on his religious and philosophical texts his relatively overlooked law code or Domboc reveals much about his rule and how he was perceived in subsequent centuries Joining major voices in the fields of early English law and literature this exploration of King Alfred's influential text traces its evolution from its 9th century origins to reappearances in the 11th 12th and 16th centuries Alfred's use of the vernacular and representation of secular practices this work contends made the Domboc an ideal text for establishing a particularly English national identity *The Oxford History of the Laws of England: The Canon*

law and ecclesiastical jurisdiction from 597 to the 1640s R. H. Helmholz, 2003 This is one of the first volumes to appear in a landmark new series *The Oxford History of the Laws of England* It traces the history of the reception and role of the canon law in England between 597 and 1649 examining both the establishment of ecclesiastical courts and the heads of jurisdiction within them Legal practice is viewed against the background of the formal canon law Readership Libraries and scholars of ecclesiastical law and history canon law and history Medieval and Early Modern history and comparative law [Wikipedia](#) ,

Æthelflæd, Lady of the Mercians, and Women in Tenth-Century England Rebecca Hardie, 2023-11-06 thefl d c 870 918 political leader military strategist and administrator of law is one of the most important ruling women in English history Despite her multifaceted roles and family legacy however her reign and relationship with other women in tenth century England have never been the subject of a book length study This interdisciplinary collection of essays redresses a notable hiatus in scholarship of early medieval England thefl d Lady of the Mercians and Women in Tenth Century England argues for a reassessment of women s political military literary and domestic agency It invites deeper reflection on the female kinships networks and communities that give meaning to thefl d s life and through this shows how medieval history can invite new engagements with the past **Anglo-Saxon England: Volume 28** Michael Lapidge, Malcolm Godden, Simon Keynes, 2000-06-22 This volume is framed by articles that throw interesting light on the achievement and reputation of the greatest of Anglo Saxon kings Alfred *The Formation of the English Kingdom in the Tenth Century* George Molyneaux, 2017-11-03 The central argument of *The Formation of the English Kingdom in the Tenth Century* is that the English kingdom which existed at the time of the Norman Conquest was defined by the geographical parameters of a set of administrative reforms implemented in the mid to late tenth century and not by a vision of English unity going back to Alfred the Great 871 899 In the first half of the tenth century successive members of the Cerdicing dynasty established a loose domination over the other great potentates in Britain They were celebrated as kings of the whole island but even in their Wessex heartlands they probably had few means to regulate routinely the conduct of the general populace Detailed analysis of coins shires hundreds and wapentakes suggests that it was only around the time of Edgar 957 9 975 that the Cerdicing kings developed the relatively standardised administrative apparatus of the so called Anglo Saxon state This substantially increased their ability to impinge upon the lives of ordinary people living between the Channel and the Tees and served to mark that area off from the rest of the island The resultant cleft undermined the idea of a pan British realm and demarcated the early English kingdom as a distinct and coherent political unit In this volume George Molyneaux places the formation of the English kingdom in a European perspective and challenges the notion that its development was exceptional the Cerdicings were only one of several ruling dynasties around the fringes of the former Carolingian Empire for which the late ninth tenth and eleventh centuries were a time of territorial expansion and consolidation [Warfare and Society in the Barbarian West 450-900](#) Guy Halsall, 2008-01-28 Guy Halsall relates warfare to many aspects of medieval life economy

society and politics This book recovers its distinctiveness looking at warfare in a rounded context in the British Isles and Western Europe between the end of the Roman Empire and the break up of the Carolingian Empire Examining the raising and organization of early medieval armies and looks at the conduct of campaigns the survey also includes a study of the equipment of warriors and the horrific experience of battle as well as an analysis of medieval fortifications and siege warfare Warfare and Society in the Barbarian West uses historical and archaeological evidence in a rigorous and sophisticated fashion It stresses regional variations but also places Anglo Saxon England in the mainstream of the military developments in this era and in the process provides an outstanding resource for students of all levels Crusading and Warfare in the

Middle Ages Simon John,Nicholas Morton,2016-04-22 This volume has been created by scholars from a range of disciplines who wish to show their appreciation for Professor John France and to celebrate his career and achievements For many decades Professor France s work has been instrumental in many of the advances made in the fields of crusader studies and medieval warfare He has published widely on these topics including major publications such as Victory in the East A Military History of the First Crusade 1994 and Western Warfare in the Age of the Crusades 1999 This present volume mirrors his interests offering studies upon both areas The fifteen essays cover a wide variety of topics spanning chronologically from the Carolingian period through to the early fourteenth century Some offer new insights upon long contested issues such as the question of whether a new form of cavalry was created by Charles Martel and his successors or the implications of the Mongol defeat at Ayn Jalut Others use innovative methodologies to unlock the potential of various types of source material including manuscript illuminations depicting warfare Templar graffiti German crusading songs and crusading charters Several of the articles open up new areas of debate connected to the history of crusading Malcolm Barber discusses why Christendom did not react decisively to the fall of Acre in 1291 Bernard Hamilton explores how the rising Frankish presence in the Eastern Mediterranean during the central medieval period reshaped Christendom s knowledge and understanding of the North African cultures they encountered In this way this work seeks both to advance debate in core areas whilst opening new vistas for future research **The Haskins Society Journal 15** Bernard Hamilton,David Bates,Helen J.

Nicholson,2006-04-20 The 2006 volume of the Haskins Society features another impressive array of academics addressing the period from Anglo Saxon to Angevin This latest volume of the Haskins Society Journal presents recent research on the Anglo Saxon Anglo Norman Viking and Angevin worlds of the eleventh and twelfth centuries topics range from a major reassessment of King Alfred the last work finished by Patrick Wormald and examinations of William the Conqueror Thomas Beckett and Sybil of Jerusalem to questions of legal testimony military organization western geographic knowledge in the middle ages and more Contributors WILLIAM M AIRD NATHANIEL LANE TAYLOR DAVID BATES JOHN D HOSLER ROBERT JONES HELEN J NICHOLSON BERNARD HAMILTON **Source of Wisdom** Thomas D. Hill,Frederick M. Biggs,Charles Darwin Wright,Thomas N. Hall,2007-01-01 As one of the most prolific and influential scholars in the field Thomas D Hill has

made an indelible mark on the study of Old English literature In celebration of his distinguished career the editors of *Source of Wisdom* have assembled a wide ranging collection of nineteen original essays on Old English poetry and prose as well as early medieval Latin touching upon many of Hill's specific research interests Among the topics examined in this volume are the Christian Latin sources of Old English texts including religious and sapiential poetry and prose translations of Latin writings Old English poems such as *Beowulf* *The Dream of the Rood* and *The Wife's Lament* are treated throughout to thematic textual stylistic lexical and source analysis Prose writers of the period such as King Alfred and *Wulfstan* as well as medieval Latin writers such as Bede and Pseudo Methodius are also discussed As an added feature the volume includes a bibliography of publications by Thomas D Hill *Source of Wisdom* is ultimately a contribution to the understanding of medieval English literature and the textual traditions that contributed to its development
