The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood s 2014 American Sniper a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood s body of cinematic work As a collection these essays show that none of these themes account for Eastwood s entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

A Global Racial Enemy Saher Selod, Inaash Islam, Steve

Garner,2023-11-28 Prejudice against Muslims has a long and complex history In recent decades discrimination violence and human rights abuses against Muslims have taken a significant turn with rising reports and discussions of Islamophobia across the globe However much of the conversation has missed the key features of this increasingly insidious phenomenon This original book puts race at the center of the analysis exposing the global racialization of Muslims With special attention paid to the United States China India and the United Kingdom the authors examine both the unique national contexts and crucially the shared characteristics of anti Muslim racism They uncover how a range of counterterrorism policies from hyper surveillance to racialized policing and the ensuing representation of Islam have taken a decisive role in shaping social life for Muslims and have worked across borders to justify and institutionalize an acceptable state sponsored face of racism Ultimately *A Global Racial Enemy* argues that anti Muslim animus is a symptom of a global and powerful form of twenty first century racism

America's Addiction to Terrorism Henry A. Giroux,2016 In the United States today the term terrorism conjures up images of dangerous outside threats religious extremists and suicide bombers in particular Harder to see but all the more pervasive is the terrorism perpetuated by the United States itself whether through military force overseas or woven into the very fabric of society at home Henry Giroux in this passionate and incisive book turns the conventional wisdom on terrorism upside down demonstrating how fear and lawlessness have become organizing principles of life in the United States and violence an acceptable form of social mediation He addresses the most pressing issues of the moment from officially sanctioned torture to militarized police forces to austerity politics Giroux also examines the ongoing degradation of the education system and how young people in particular suffer its more nefarious outcomes Against this grim picture Giroux posits a politics of hope and a commitment to accurate and radical historical memory He draws on a long distinguished career developing the tenets of critical pedagogy to propose a cure for our addiction to terrorism a kind of public pedagogy that challenges the poisoned narratives of America's dis imagination machine

Going Scapegoat David A. Buchanan,2016-09-27 Since 9 11 war literature has become a key element in American popular culture spurring critical debate about depictions of combat Who can write war literature When can they do it This book presents a new way to closely

read war narratives questioning the idea of combat gnosticism the belief that the experience of war is impossible to communicate to those who have not seen it that has dominated the discussion Adapting Kenneth Burke's scapegoat mechanism to the criticism of literature and film the author examines three novels from 2012 Ben Fountain's *Billy Lynn's Long Halftime Walk* David Abrams's *FOBBIT* and Kevin Powers' *The Yellow Birds* that represent the U.S. military responses to 9/11

Monstrous Fantasies Leila K. Norako, 2024-08-15 *Monstrous Fantasies* asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K. Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer's *Canterbury Tales* conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum *Monstrous Fantasies* also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so-called wars on terror in the twenty-first century in such films as *Kingdom of Heaven* and *American Sniper*

Hollywood's Imperial Wars Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the

next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando Jos Prats explores in Hollywood's Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like Sands of Iwo Jima to the rupture of that myth in films such as The Deer Hunter Apocalypse Now and Platoon As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts

Studying The Hurt Locker Terence McSweeney, 2019-07-02 In this vibrant and dynamic book length study drawing on a broad tapestry of research Terence McSweeney offers an exploration of The Hurt Locker 2009 its stylistic and narrative devices its cultural impact its reception and its relationship to the genre of the war film McSweeney places the film in a richly textured historical political and industrial context arguing that The Hurt Locker is part of a long tradition of films about American wars that play a considerable role in how audiences come to understand the conflicts that they depict Thus films about a nation's wars are never only a movie but rather should be considered a cultural battleground themselves on which a war of representation is waged

"One Step Beyond the Hero" Giorgio Mariani, 2025-03-26 The essays collected in this volume were written over the last twenty or so years and were all originally published with one exception in a variety of journals and edited collections The topics covered range from contemporary Native American literature to war literature and cinema from the revisionist Western film to the prose of Ralph Waldo Emerson and other writers who struggled to think of peace as something different from the peace that can be safeguarded by an unending preparedness for war As a whole this book attempts to gauge to what extent both film and narrative can point in the direction of that one step beyond the hero which Emerson in his early years saw as necessary to becoming true peace fighters Though

One Step Beyond the Hero shows how difficult it is to imagine let alone realize a world free of violence brutality and coercion its goal is not to undermine the Utopian desire for a non violent future On the contrary by calling attention to how writers and filmmakers deal with both violence and war this study engages in a critical scrutiny of culture based on the notion that peace should be another word for justice *American War Stories* Brenda M. Boyle,2020-11-13 *American War Stories* breaks down the American perception of wars and focuses on how and why we conceptualize the war story It is one of the first studies to ask readers to contemplate what constitutes a war story and how that constitution obscures the normalizing of militarism in American culture *The Cambridge Companion to Religion and Terrorism* James Lewis,2017-07-25 Does religion cause terrorism This volume presents a range of theories and case studies that address this important issue *The War Comes with You* Stacey Peebles,2024-12-12 How do we tell twenty first century war stories when the wars seem to go on forever In the post 2011 surge of war stories published in America and Iraq the defining characteristic is the depiction of combat violence that crosses borders overtakes civilian spaces and disrupts chronology In *The War Comes with You* Enduring War in Life Fiction and Fantasy Stacey Peebles picks up where her groundbreaking first book *Welcome to the Suck* Narrating the American Soldier s Experience in Iraq left off Via careful readings of fiction memoir and poetry by writers such as Ben Fountain Siobhan Fallon Brian Turner and Hassan Blasim as well as recent superhero and Star Wars films Peebles argues that in the face of real and fantasy forever wars things fall apart Language identities bodies and even the stories themselves fragment These narratives suggest that people need not accept incoherence and there is a range of meaningful responses to the experience of everywhere all the time war Peebles illustrates what to do that is when war comes with you **Enemy Inside The Gates: Snipers In Support Of Military Operations In Urbanized Terrain** Lt.-Colonel Jeffery E. Dearolph USMC,2014-08-15 As the world s urban areas continue to increase in size the possibility of U S forces conducting military operations in urbanized terrain also increases However the weapon systems the U S procures and employs obtain maximum effectiveness in open terrain These weapons prove less capable in urban terrain since their standoff and precision advantages suffer degradation due to buildings and the fleeting nature of enemy personnel U S weaponry also causes a large amount of collateral damage that may also result in civilian casualties which proves politically unacceptable Potential adversaries of the U S realize these limitations and present a target set that proves difficult to locate and engage The target set the enemy uses in urban terrain consists of enemy combatants mixing with non combatants enemy snipers and special purpose teams Assets the U S possesses that can engage elements of the enemy s urban target set include U S Army and Marine Corps snipers However a determination on whether more snipers will effectively defeat the target set requires consideration This monograph analyzes the contemporary operating environment to articulate the enemy s urban target set Next a review of current U S Army and Marine Corps sniping doctrine organization and training establishes the foundation for presenting the sniper s capability to defeat the urban target set In order to provide a balanced argument other possible

solutions to engaging and defeating the target set receive consideration Research shows that the sniper company organized at the division level achieves the desired effect of increasing the density of sniper teams on the urban battlefield The costs associated with the sniper company prove acceptable as it requires minimal expenditure concerning personnel and equipment The division sniper company will effectively counter the enemy s urban target set without causing non combatant casualties
