Though snipers played a significant role in the battlefields of World War II, they are often overlooked by historians. In this volume, military historian and firearms expert Gary Yee offers a comprehensive and fully illustrated narrative of snipers across the major theaters of conflict: Europe, the Eastern Front, and the Pacific. Drawing on memoirs, archives, wartime photographs, and eyewitness accounts, *World War II Snipers* presents a compelling and authoritative study. Each of the warring countries had its own unique methodology for selecting and training snipers. They recruited hunters, outdoorsmen, competitive shooters, and military veterans to take on this highly skilled role. They were deployed to ensure battlefield dominance and instill a paralyzing fear among the enemy. Yee tells the stories of these soldiers who were both admired and at times reviled by their own comrades. He also includes a lengthy chapter on the sniper rifles and other equipment issued to snipers. *Voices of Snipers* John Walter, 2022-05-30 Based on an incredible breadth of first-hand testimony, this is a unique collection of eyewitness accounts from World War I and II. John Walter draws on meticulous research and the reminiscences of more than fifty snipers, tracing their journeys from recruitment and selection through training, combat, and its aftermath to reveal a surprising commonality of experience even across nationalities. Laying bare the triumphs and brutalities of sniping, the personalities and psychologies of those who found themselves doing it, and considering the immediate implications on both the sniper and the wider theatre of war, this is a fascinating, detailed insight into frontline combat and the experience of sharpshooting in its historical context. The book is appended with the complete diary of Russian sniper Roza Shanina, who is still celebrated today for her remarkable shooting accuracy and astonishing bravery. Her diary offers a rare insight into the complexities of what it was to be both a sniper and a

woman on the frontline **Focus On: 100 Most Popular New Line Cinema Films** Wikipedia contributors, **Snipers at War** John Walter, 2017-05-30 Snipers at War is a detailed history and analysis of the equipment tactics and personalities of the sniping world from the pursuit of accuracy to the latest electronic aids to observation and ranging Technology and marksmanship from the Crimean War to the present day is examined in detail The role of the sniper was largely ignored until the Winter War of 1939 40 between Finland and the USSR showed what could be achieved by specialist marksmen Finn Simo Häyhä amassed 505 kills in less than a hundred days a lesson learned by the Red Army to its cost By the Germans invasion of 1941 the Russians were prepared when the war ended in addition to men such as Vasiliy Zaytsev a Stalingrad hero with 242 accredited kills the USSR had trained more than 2000 women as snipers After 1945 the sniper's reputation declined again However the Vietnam War seemingly unending Middle Eastern conflict internal strife in Sri Lanka and ever present urban threats have given new impetus not only to sniping but also to the development of new and more effective weaponry **The Greatest Stories Never Told: Snipers** Laurence J. Through the Crosshairs Roger Stahl, 2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper's gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon's eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence

Locating Classical Receptions on Screen Ricardo Apostol, Anastasia Bakogianni, 2018-10-19 This volume explores film and television sources in problematic conversation with classical antiquity to better understand the nature of artistic reception and classical reception in particular Drawing inspiration from well theorized fields like adaptation studies comparative literature and film the essays in this collection raise questions fundamental to the future of reception studies The first section Beyond Fidelity deals with idiosyncratic adaptations of ancient sources the second section Beyond Influence discusses modern works purporting to adapt ancient figures or themes that are less straightforwardly ancient than they may at first appear while the last section Beyond Original uses films that lack even these murky connections to antiquity to challenge the notion that studying reception requires establishing historical connections between works As questions of audience interpretation and subjectivity are central to most contemporary fields of study this is a collection that is of interest to a wide variety of readers in the humanities

Studying The Hurt Locker Terence McSweeney, 2019-07-02 In this vibrant and dynamic book length study drawing on a broad tapestry of research Terence McSweeney offers an exploration of The Hurt Locker 2009 its stylistic and narrative devices its cultural impact its reception and its relationship to the genre of the war film McSweeney places the film in a richly

textured historical political and industrial context arguing that *The Hurt Locker* is part of a long tradition of films about American wars that play a considerable role in how audiences come to understand the conflicts that they depict Thus films about a nation s wars are never only a movie but rather should be considered a cultural battleground themselves on which a war of representation is waged
