Monsters, Law, Crime Caroline Joan "Kay" S. Picart, 2020-11-18. *Monsters Law Crime* an edited collection composed of essays written by prominent U.S. and international experts in Law Criminology Sociology Anthropology Communication and Film constitutes a rigorous attempt to explore fertile interdisciplinary inquiries into monsters and monster talk and law and crime. This edited collection explores and updates contemporary discussions of the emergent and evolving frontiers of monster theory in relation to cutting edge research on law and crime as extensions of a Gothic Criminology. This theoretical framework was initially developed by Caroline Joan Kay S. Picart, a Philosophy and Film professor turned Attorney and Law professor, and Cecil Greek, a Sociologist. Picart and Greek (2008) proposed a Gothic Criminology to analyze the fertile synapses connecting the real and the reel in the flow of Gothic metaphors and narratives that abound around criminological phenomena that populate not only popular culture but also academic and public policy discourses. Picart's edited collection adapts the framework to focus predominantly on law and the social sciences.

International Perspectives on Rethinking Evil in Film and Television Tüysüz, Dilan, 2020-12-22. Aestheticization of evil is a frequently used formula in cinema and television. However, the representation of evil as an aesthetic object pushes it out of morality. Moral judgments can be pushed aside when evil is aestheticized in movies or TV series because there is no real victim. Thus, situations such as murder or war can become a source of aesthetic pleasure. Narratives in cinema and television can sometimes be based on a simple good/evil dichotomy and sometimes they can be based on individual or social experiences of evil and follow a more complicated method. Despite the various ways evil is depicted, it is a moral framework in film and television that must be researched to study the implications of aestheticized evil on human nature and society. *International Perspectives on Rethinking Evil in Film and Television* examines the changing representations of evil on screen in the context of the commonness, normalization, aestheticization, marginalization, legitimization, or popularity of evil. The chapters provide an international perspective of the representations of evil through an exploration of the evil tales or villains in cinema and television. Through looking at these programs, this book highlights topics such as the philosophy of good and evil, the portrayal of heroes and villains, the appeal of evil, and evil's correspondence with gender and violence. This book is ideal for sociologists, professionals, researchers, and students working or studying in the field of cinema and television and practitioners, academicians, and anyone interested in the portrayal and aestheticization of evil in international film and television.

Mission Unaccomplished Alan Nadel, 2025-10-07. An analysis of how post-9/11 war movies changed from following soldiers on specific missions to chronicling war as a day-to-day occupation. In 2003, the United States began a war in

Iraq without a mission Instead of fighting to restore peace the traditional objective of warfare servicemembers faced the grim reality that there was no goal Lacking even certainty as to who was the enemy soldiers discovered that their task was simply to survive Mission Unaccomplished explores how Hollywood grasped the experience of Iraq from the perspective of US soldiers reinventing the war film in the process Historically films such as Saving Private Ryan valorized the goals of war by chronicling missions that unambiguously contribute to the defeat of the enemy and the restoration of peace But in The Hurt Locker American Sniper Green Zone and other recent dramas soldiers just try to outlast the chaos Dramatizing the aimlessness of the war events occur in random order and soldiers have no sense of how their actions contribute to victory or peace Looking to recent WWII movies such as Dunkirk and Hacksaw Ridge which use this same cinematic vocabulary to position soldiering as merely a deadly job to be endured Alan Nadel argues that the disillusionment of Iraq has influenced cinema broadly inspiring a newly critical war film genre

Fighting Hurt Henry Shue, 2016 This volume brings together key work by the leading political philosopher Henry Shue on the issue of torture and the moral challenges surrounding the initiation and conduct of war

The Hero and the Victim Gregory Brazeal, 2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War

One Shot One Kill Charles W. Sasser, Craig Roberts, 1990-04-01 They are the lone wolves of the battlefield Tracking the enemy lying in wait for the target to appear then they shoot to kill Armed with an unerring eye infinite patience and a mastery of camouflage combat snipers stalk the enemy with only one goal In World War II Korea Vietnam and Beirut American snipers honed the art of delivering a single deadly shot from nowhere and devastating enemy morale They met the enemy on his own turf picking off officers unwary soldiers and even other snipers from extraordinary distances of up to 1 miles Now these uncommon men tell their stories of the emotions felt when a man's face came into their crosshairs and they pulled the trigger of the nerve-racking hours and days of waiting motionless for the enemy of the primal savagery of a sniper duel Often trained haphazardly in wartime and forgotten in times of peace combat snipers were officially recognized after the Vietnam War when the Marine Corps became the first military branch to start a full-time sniper school One Shot One Kill is their powerful record of desperate trials and proud victories

The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 American Sniper a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his

films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives *Parameters*, 2017 **Modern Snipers** Leigh Neville, 2016-08-25 The years since 9/11 have seen major changes in the way snipers are employed on the modern battlefield alongside an incredibly rapid evolution in their weapons equipment and training This book covers the 14 years of near constant warfare since the dawn of the 21st century documenting where when and how snipers have been deployed their rifles optics and their ancillary equipment such as laser range finders their training and tactics and accounts of real life operations involving sniper teams The wars in Iraq and Afghanistan have reaffirmed the importance of snipers in both conventional and unconventional warfare and this study covers these developments in depth as well as looking at the role of the sniper in police and counterterrorism environments

U.S. Marine Corps Scout-sniper Peter R. Senich, 1993 The advent of jungle warfare in the South Pacific in 1942 opened an entirely new chapter in the art of fieldcraft and marksmanship for the U.S. Marine Corps To eliminate the Japanese jungle fighter the Corps had to formulate innovative tactics even more efficient than those successfully implemented by the scouts observers and snipers of World War I The Corps set about training and fielding a new breed of combat specialist the U.S. Marine Corps scout sniper Now after more than two decades of research Peter Senich has written what is undoubtedly the most thorough and accurate account ever of the training equipment and combat experiences of this important facet of the history of Marine Corps sniping Contains rare combat and training photos of scout snipers in action **The CIA as Organized Crime** Douglas Valentine, 2016-11-28 This book provides insight into the paradigmatic approaches evolved by CIA decades ago in Vietnam which remain operational practices today in Afghanistan El Salvador Iraq Syria Yemen and elsewhere Valentine's research into CIA activities began when CIA Director William Colby gave him free access to interview CIA officials who had been involved in various aspects of the Phoenix program in South Vietnam The CIA would rescind it making every effort to impede publication of The Phoenix Program which documented the CIA's elaborate system of population surveillance control entrapment imprisonment torture and assassination in Vietnam While researching Phoenix Valentine learned that the CIA allowed opium and heroin to flow from its secret bases in Laos to generals and politicians on its payroll in South Vietnam His investigations into this illegal activity focused on the CIA's relationship with the federal drugs agencies mandated by Congress to stop illegal drugs from entering the United States Based on interviews with senior officials Valentine wrote two subsequent books The Strength of the Wolf and The Strength of the Pack showing how the CIA infiltrated federal drug law enforcement agencies and commandeered their executive management intelligence and foreign operations staffs in order to ensure that the flow of drugs continues unimpeded to traffickers and foreign officials in its

employ Ultimately portions of his research materials would be archived at the National Security Archive Texas Tech University's Vietnam Center and John Jay College This book includes excerpts from the above titles along with updated articles and transcripts of interviews on a range of current topics with a view to shedding light on the systemic dimensions of the CIA's ongoing illegal and extra legal activities These terrorism and drug law enforcement articles and interviews illustrate how the CIA's activities impact social and political movements abroad and in the United States A common theme is the CIA's ability to deceive and propagandize the American public through its impenetrable government sanctioned shield of official secrecy and plausible deniability Though investigated by the Church Committee in 1975 CIA praxis then continues to inform CIA praxis now Valentine tracks its steady infiltration into practices targeting the last population to be subjected to the exigencies of the American empire the American people
