

A close-up, cinematic shot of a man and a woman in a Western setting. The man, on the right, wears a brown cowboy hat and a dark vest over a light-colored shirt. He has a serious expression and a light beard. The woman, on the left, has long, wavy brown hair and is looking directly at the camera with a slight smile. She is wearing a light-colored, possibly lace-trimmed, top. The background is softly blurred, showing warm, golden light, suggesting an indoor setting like a saloon or a rustic home.

A Western Romance A Gunfighters Promise:

The Western David Lusted, 2014-10-13 The Western introduces the novice to the pleasures and the meanings of the Western film shares the excitement of the genre with the fan addresses the suspicions of the cynic and develops the knowledge of the student The Western is about the changing times of the Western and about how it has been understood in film criticism Until the 1980s more Westerns were made than any other type of film For fifty of those years the genre was central to Hollywood's popularity and profitability The Western explores the reasons for its success and its latter day decline among film makers and audiences alike Part I charts the history of the Western film and its role in film studies Part II traces the origins of the Western in nineteenth century America and in its literary theatrical and visual imagining This sets the scene to explore the many evolving forms in successive chapters on early silent Westerns the series Western the epic the romance the dystopian the elegiac and finally the revisionist Western The Western concludes with an extensive bibliography filmography and select further reading Over 200 Westerns are discussed among them close accounts of classics such as *Duel in the Sun* *The Wild Bunch* and *Unforgiven* formative titles like John Ford's epic *The Iron Horse* and early cowboy star William S Hart's *The Silent One* together with less familiar titles that deserve wider recognition including *Comanche Station* *Pursued* and *Ulzana's Raid*

Reimagining the Promised Land Rodney Wallis, 2020-09-17 While Israel has seemingly been a minor presence in Hollywood cinema *Reimagining the Promised Land* argues that there is a long history of Hollywood deploying images of Israel as a means of articulating an idealized notion of American national identity This argument is developed through readings of *The Ten Commandments* Cecil B DeMille 1956 *Ben Hur A Tale of the Christ* William Wyler 1959 *Exodus* Otto Preminger 1960 *Cast a Giant Shadow* Melville Shavelson 1966 *Black Sunday* John Frankenheimer 1977 *The Delta Force* Menahem Golan 1986 and *Munich* Steven Spielberg 2005 The mobilization of Israel that pervades this eclectic group of films effectively demonstrates one of the more surreptitious ways in which Hollywood has historically constructed and circulated dominant notions of American national identity Moreover in examining the most notable Hollywood representations of the Jewish state the book offers an informed historical overview of the cultural forces that have contributed to popular understandings within the United States of the state of Israel Israel's Arab neighbours and also the Arab Israeli conflict
