Asian American Issues Relating to Labor, Economics, and Socioeconomic Status Franklin Ng, 2014-06-23

In the late 19th and early 20th century, labor issues fanned the flames of anti-Asian sentiment as they continue to do to this day. These essays explore the topics of immigration and work, ethnic economics, and enclaves, the role of middlemen, minorities, Southeast Asian refugee employment, and issues of class hierarchy, immigrant recruitment, intra-community exploitation, and poverty in Asian American communities.

Feeling Asian American Wen Liu, 2024-05-07

Asian Americans have become the love-hate subject of the American psyche: at times celebrated as the model minority, at other times hated as foreigners. Wen Liu examines contemporary Asian American identity formation while placing it within a historical and ongoing narrative of racial injury. The flexible racial status of Asian Americans oscillates between oppression by the white majority and offers to assimilate into its ranks. Identity emerges from the tensions produced between those two poles. Liu dismisses the idea of Asian Americans as a coherent racial population. Instead, she examines them as a raced, gendered, classed, and sexualized group producing varying physical and imaginary boundaries of nation, geography, and citizenship. Her analysis reveals

repeated norms and acts that capture Asian Americanness as part of a racial imagination that buttresses capitalism white supremacy neoliberalism and the US empire An innovative challenge to persistent myths Feeling Asian American ranges from the wartime origins of Asian American psychology to anti Asian attacks to present Asian Americanness as a complex political assemblage **Asian American Communities and Health** Chau Trinh-Shevrin,Nadia S. Islam,Mariano Jose

Rey,2009-04-03 This ground breaking textbook examines Asian American health from a public health perspective It provides an overview of the social political economic and cultural forces that influence the distribution of disease and illness in Asian American communities The book explores the diversity within the Asian community with respect to health seeking behavior and knowledge socioeconomic status educational level cultural traditions and specific health care needs and issues By examining the contextual factors that impact health the book seeks to facilitate a meaningful dialogue and identify creative solutions for health disparities faced by racial and ethnic minority communities *Asian American Women* Lora Jo Foo,2002 Asian American Women Issues Concerns and Responsive Human and Civil Rights Advocacy reveals the struggles of Asian American women at the bottom of the socio economic ladder where hunger illness homelessness sweatshop labor exposure to hazardous chemicals and even involuntary servitude are everyday realities Asian American women of all socio economic classes suffer from domestic violence whose root causes stem from the particular forms of patriarchy that exist in Asian cultures Their health and lives are endangered due to prevalent but wrong stereotypes about Asian women The model minority myth hides the appalling level of human and civil rights violations against Asian American women The lack of research or the lumping together of the over 24 subgroups of Asian Americans into a homogeneous whole misleads the public as to the extent of injustices inflicted on Asian American women The book captures their suffering and also the fighting spirit of Asian American women who have waged social and economic justice campaigns and founded organizations to right the wrongs against them The book is a call to action to Asian Americans policy makers civil rights organizations and the philanthropic community to support Asian American women in their struggles to advance their social justice agenda

Asian/American David Palumbo-Liu, 1999 This book argues that the invention of Asian American identities serves as an index to the historical formation of modern America By tracing constructions of Asian American to an interpenetrating dynamic between Asia and America the author obtains a deeper understanding of key issues in American culture history and society The formation of America in the twentieth century has had everything to do with westward expansion across the Pacific frontier and the movement of Asians onto American soil After the passage of the last piece of anti Asian legislation in the 1930 s the United States found it had to grapple with both the presence of Asians already in America and the imperative to develop its neocolonial interests in East Asia The author argues that under these double imperatives a great wall between Asian and American is constructed precisely when the two threatened to merge Yet the very incompleteness of American identity has allowed specific and contingent fusion of Asian and American at particular historical junctures From the importation of Asian labor in the mid nineteenth century the territorialization of Hawaii and the Philippines in the late nineteenth century through wars with Japan Korea and Vietnam and the Cold War with China to today s Asian Pacific Economic Cooperation group the United States in the modern age has seen its national identity as strongly attached to the Pacific As this has taken place so has the formation of a variety of Asian American identities Each contains a specific notion of America and reveals a particular conception of Asian and American Complicating the usual notion of identity politics and drawing on a wide range of writings sociological historical cultural medical anthropological geographic economic journalistic and political the author studies both how the formation of these identifications discloses the response of America to the presence of Asians and how Asian Americans themselves have inhabited these roles and resisted such categorizations inventing their own particular subjectivities as Americans
