**A Sociology of Religious Emotion** Ole Riis, Linda Woodhead, 2010-06-24 This timely book aims to change the way we think about religion by putting emotion back onto the agenda It challenges a tendency to over emphasise rational aspects of religion and rehabilitates its embodied visceral and affective dimensions Against the view that religious emotion is a purely private matter it offers a new framework which shows how religious emotions arise in the varied interactions between human agents and religious communities human agents and objects of devotion and communities and sacred symbols It presents parallels and contrasts between religious emotions in European and American history in other cultures and in contemporary western societies By taking emotions seriously *A Sociology of Religious Emotion* sheds new light on the power of religion to shape fundamental human orientations and motivations hopes and fears joys and sorrows loves and hatreds

**Research Handbook on the Sociology of Emotion** Helena Flam, 2024-04-12 The Research Handbook on the Sociology of Emotion investigates the role of emotions in key institutions understood as the frames and fabrics of society It takes a critical look at society framing institutions such as the state the military the market and international organizations

*Emotions and Religious Dynamics* Nathaniel A. Warne, 2016-05-13 We all feel emotions and are moved to action by them Religious communities often select and foster certain emotions over others Without understanding this it is hard to grasp the way groups view the world and each other Often it is the underlying emotional pattern of a group rather than its doctrines that either divides it from or attracts it to others These issues so important in today's world are explored in this book in a genuinely interdisciplinary way by anthropologists psychologists theologians and historians of religion and in some detailed studies of well and less well known religious traditions from across the world

*Religious Emotions* Walter Van Herck, Willem Lemmens, 2009-05-05 In recent decades contemporary Anglo American philosophy has seen a boom in publications on the subject of the emotions Most

publications focus on the cognitive value of emotions and on their moral significance The role which emotions play in religion however has so far received little attention In this volume a number of scholars present their research on religious emotions Is there a category of religious emotions What is so distinctive about them Was there really a Christian inspired repression of the emotions Or did Christianity also make use of the human emotional potential How is the relation between religion and emotions conditioned by the process of secularisation How and why did a shift from the concept of passion to that of emotion occur from the eighteenth century on This collection includes systematical treatments as well as historical approaches of these issues The last part gives some paradigmatic cases of religious emotions like emptiness and oceanic feeling In the study of what constitutes a human being neither religion nor emotion can be neglected The reader is invited to reflect on their interaction

**Women, Religion, and Emotions in Modern Germany and Beyond** Lisa Fetheringill  
Zwicker, Martina Cucchiara, 2025 Analyzes the role of emotions in the religious lives of women from across Germany and Europe from the nineteenth century to the 1970s Scholarship on women and religion has focused primarily on the intersection between women's religious engagement and their emancipation This volume goes beyond that to examine the vital role religion has played in the private and public lives of German and European women Because emotions are central to the expression of religiosity it draws on approaches from the history of emotions to examine how women understood felt and practiced religion in their search for meaning Spanning from the nineteenth century to the 1970s the volume's essays show how religion helped women make sense of their lives It also illuminates the degree to which women used religion and its attendant emotional scripts to shape modern society and how religious discourses in turn shaped women's emotions and comportment in the public sphere The volume builds on recent research that shows that religion especially the religiosity of women remained a pressing public concern in modern Europe From anxieties over the religiosity of Bavarian servants to restrictive norms imposed on Jewish widows from the interfaith commitments of kindergarten teachers to the autobiographical narratives of aspiring Protestant deaconesses from the suffering of stigmatics in Germany and Belgium to Irish women's public narratives of their religiosity this book reveals how women's faith and attendant religious emotions have been central to their public and private lives

Emotions and Religious Dynamics Mr Nathaniel A Warne, Professor Douglas J. Davies, 2014-02-28 We all feel emotions and are moved to action by them Religious communities often select and foster certain emotions over others Without understanding this it is hard to grasp the way groups view the world and each other Often it is the underlying emotional pattern of a group rather than its doctrines that either divides it from or attracts it to others These issues so important in today's world are explored in this book in a genuinely interdisciplinary way by anthropologists psychologists theologians and historians of religion and in some detailed studies of well and less well known religious traditions from across the world

*Restless* David J. Gillard, 2022-01-06 Why do many popular songs positively reference God if our culture is widely viewed as secular Why is it a challenge to tell the Christian story when many say they

are spiritual and believe in God Why do we draw so much meaning from the popular songs we listen to And might a deeper understanding of popular music culture help us to explore the bigger stories we listen to throughout our lives such as the Christian story Primarily using Zygmunt Bauman s understanding of liquid modernity we look at the social forces that shape Western society and consider why while many are looking for authentic ontologically based stories to understand their life experiences historic providers of the big stories that shape our lives such as the church favor a different epistemological way of telling them How do these different approaches to storytelling affect their reception and what insight might we draw from that Whilst this book is written primarily with those in Christian ministry in mind it will be of interest too to those who use music to explore life experiences through their work who are interested in the social forces that shape society or who simply enjoy listening to popular music *Religion as Orientation and Transformation* Jan-Olav Henriksen,2017-05-12 Religions are not primarily expressed in people s heads and their thoughts but in what they do People use religious symbols in order to orientate or change themselves In this way religion is related to all realms of human life Jan Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life Book jacket **Ritual and Religious**

**Psychology in Nietzsche's Criticism of Religion** Jan-Olav Henriksen,2022-11-14 Friedrich Nietzsche claimed to be a psychologist This claim is substantiated in his criticism of religion In this book Jan Olav Henriksen provides new perspectives on Nietzsche s contribution to such criticism by applying elements from attachment theory and self psychology The result is that Nietzsche s insights into the problematic elements in religion point beyond what he was able to articulate based on the psychological resources available to him Henriksen sheds new light on the psychological dimensions in Nietzsche s individualism his understanding of God morality metaphysics and emotions and demonstrates how Nietzsche s criticism of religion is rooted in both psychological splitting and a profound loss of the orientational resources religion provided in his childhood **Emotions, senses and affects in the context of Southeast Europe Part 1** Klaus Roth,2020-01-01 This volume focuses on emotions of people in Southeast Europe Grief and sadness take on different forms of expression In the era
