National Response Plan, 2004. **Fire Management Notes**, 1993. **National Incident Management System**, 2017. Since the Federal Emergency Management Agency (FEMA) last revised the NIMS guidance in 2008, the risk environment has evolved, and our national incident management capabilities have matured. This revision incorporates lessons learned and best practices from a wide variety of disciplines at all levels of government, from the private sector, tribes, and nongovernmental organizations.

National Incident Management System, Donald W. Walsh, 2005. In March 2004, the U.S. Department of Homeland Security implemented the National Incident Management System (NIMS), the country's first ever standardized approach to incident management and response. Response agencies nationwide will need to become NIMS compliant in 2005. *National Incident Management System: Principles and Practice* translates the goals of the original NIMS document from concepts into capabilities and provides responders with a step-by-step process to understanding and implementing NIMS. Through the use of case studies, readers will gain valuable insight on how to incorporate NIMS effectively into their departments or jurisdictions. As responders are

faced with the tasks of reforming training curricula and incorporating NIMS into Standard Operating Procedures it is essential that they have a practical resource to guide them through the nation's homeland security strategies as well as to assist them with NIMS implementation in their own locality

Integrated Risk Management for Leisure Services Robert B.
