something a state an object an industry a workplace to be nuclear Hecht shows that questions about being nuclear a state that she calls nuclearity lie at the heart of today's global nuclear order and the relationships between developing nations often former colonies and nuclear powers often former colonizers Hecht enters African nuclear worlds focusing on miners and the occupational hazard of radiation exposure Could a mine be a nuclear workplace if as in some South African mines its radiation levels went undetected and unmeasured With this book Hecht is the first to put Africa in the nuclear world and the nuclear world in Africa By doing so she remakes our understanding of the nuclear age

Radical Enfranchisement in the Jury Room and Public Life Sonali Chakravarti,2020-01-24 Juries have been at the center of some of the most emotionally charged moments of political life At the same time their capacity for legitimate decision making has been under scrutiny because of events like the acquittal of George Zimmerman by a Florida jury for the shooting of Trayvon Martin and the decisions of several grand juries not to indict police officers for the killing of unarmed black men Meanwhile the overall use of juries has also declined in recent years with most cases settled or resolved by plea bargain With **Radical Enfranchisement in the Jury Room and Public Life** Sonali Chakravarti offers a full throated defense of juries as a democratic institution She argues that juries provide an important site for democratic action by citizens and that their use should be revived The jury Chakravarti argues could be a forward looking institution that nurtures the best democratic instincts of citizens but this requires a change in civic education regarding the skills that should be cultivated in jurors before and through the process of a trial Being a juror perhaps counterintuitively can guide citizens in how to be thoughtful rule breakers by changing their relationship to their own perceptions and biases and by making options for collective action salient but they must be better prepared and instructed along the way America's Second Revolution Harlow Giles Unger,2007-09-01 The Declaration of Independence liberated one continent from domination by another but the Constitution revolutionized the world by entrusting citizens with rights never before in history granted to ordinary people Far from the genteel unity implied by the Constitution s opening words We the People the struggle to create and ratify this powerful document was as difficult as the fight for independence from Britain had been The road to independence had led straight to hell America was ablaze in anarchy and civil strife As civil war threatened George Washington called for a new constitution creating a powerful new federal government to restore order For the majority of Americans the new Constitution drafted in Philadelphia seemed a disaster creating a new American government with the same powers of taxation as the former British government and led by a president with powers to succeed himself indefinitely and become a monarch Former Virginia governor Patrick Henry cried out against such a central authority that could stifle state sovereignty Liberty will be lost and tyranny will result George Washington countered calling Henry an enemy of liberty The ratification process began and over the next nine months America warred with itself as each state joined in what became American s second revolution Just as the first revolution had brought Americans together the second threatened to rip the nation apart as Washington s Federalists battled Henry s Antifederalists Mobs ran riot in the streets of Philadelphia New York and Providence The wealthy elite supported the new Constitution and a strong central government while a majority of ordinary people opposed both and populist leaders such as Henry and New York governor George Clinton geared for violent conflict between the states to preserve state sovereignty By mid March 1788 eight of the nine states required for ratification of he Constitution had ratified

But Virginia the largest and the wealthiest state stood firm with New York against union and without them the new nation would be as fragile as the parchment on which the Constitution had been written With the fate of the country in the balance Washington could only hope for a miracle to save the nation from all out civil war and disunion In America s Second Revolution award winning author Harlow Giles Unger tells the gripping story of that miracle the harrowing events that led up to it and the men who made it possible Rich and powerful they displayed humor sarcasm fire brilliance ignorance hypocrisy warmth anger bigotry and hatred Their struggle pitted friend against friend brother against brother father against son But in the end they helped create a new government a new nation and ultimately a new civilization
