Visual Heritage in the Digital Age Eugene Ch'ng, Vincent Gaffney, Henry Chapman, 2013-12-04 Heritage is everywhere and an understanding of our past is increasingly critical to the understanding of our contemporary cultural context and place in global society Visual Heritage in the Digital Age presents the state of the art in the application of digital technologies to heritage studies with the chapters collectively demonstrating the ways in which current developments are liberating the study conservation and management of the past Digital approaches to heritage have developed significantly over recent decades in terms of both the quantity and range of applications However rather than merely improving and enriching the ways in which we understand and engage with the past this technology is enabling us to do this in entirely new ways The chapters contained within this volume present a broad range of technologies for capturing data such as high definition laser scanning survey and geophysical survey modelling including GIS data fusion agent based modelling and engaging with heritage through novel digital interfaces mobile technologies and the use of multi touch interfaces in public spaces The case studies presented include sites landscapes and buildings from across Europe North and Central America and collections relating to the ancient civilisations of the Middle East and North Africa The chronological span is immense extending from the end of the last ice age through to the twentieth century These case studies reveal new ways of approaching heritage using digital tools whether from the perspective of interrogating historical textual data or through the applications of complexity theory and the modelling of agents and behaviours Beyond the data itself

Visual Heritage in the Digital Age also presents fresh ways of thinking about digital heritage. It explores more theoretical perspectives concerning the role of digital data and the challenges that are presented in terms of its management and preservation. *Documentary Photography Reconsidered* Michelle Bogre, 2020-08-13 Documentary photography is undergoing an unprecedented transformation as it adapts to the impact of digital technology, social media and new distribution methods. In this book, photographer and educator Michelle Bogre contextualizes these changes by offering a historical, theoretical and practical perspective on documentary photography from its inception to the present day. *Documentary Photography Reconsidered* is structured around key concepts such as the photograph as witness, as evidence, as memory, as narrative and as a vehicle for activism and social change. Chapters include in-depth interviews with some of the world's leading contemporary practitioners demonstrating the wide variety of different working styles, techniques and topics available to new photographers entering the field. Every key concept is illustrated with work from a range of innovative, influential and often under-represented photographers, giving a flavor of the depth and range of projects from the history of this global art form. There are also creative projects designed to spark ideas and build skills to help you conceive, develop and produce your own meaningful documentary projects. The book is supported by a companion website which includes in-depth video interviews with featured practitioners.

Handbook of Research on Technologies and Cultural Heritage: Applications and Environments Styliar, Georgios, Koukopoulos, Dimitrios, Lazarinis, Fotis, 2010-11-30 *Handbook of Research on Technologies and Cultural Heritage: Applications and Environments* covers the many important uses of information communication technology in enhancing the experience at cultural environments. From museums to archaeological sites to festivals and artistic events to even government institutions and public buildings, information communication technology is revolutionizing the way the public participates at and with these cultural sites, and this reference source provides both a thorough exploration of this revolution and a springboard for future discoveries. [The Routledge International Handbook of Learning with Technology in Early Childhood](#) Natalia Kucirkova, Jennifer Rowsell, Garry Falloon, 2019-03-04 *The Routledge International Handbook of Learning with Technology in Early Childhood* focuses specifically on the most cutting-edge innovative and international approaches in the study of children's use of and learning with digital technologies. This edited volume is a comprehensive survey of methods in children's technologies and contains a rich repertoire of studies from diverse fields and research including both educational and developmental psychology, post-humanist literacy, applied linguistics, language and phenomenology and narrative approaches. For ease of reference, the Handbook's 28 chapters are divided into four thematic sections: introduction and opening reflections; studies answering ontological questions which theorize how children take on original identities in becoming literate with technologies; studies answering epistemological questions which focus on how children's knowledge and learning are co-constructed with a diverse range of technologies; studies answering practice-related questions which explore the resources and conditions that create the most powerful

learning opportunities for children Expertly edited this interdisciplinary and international compendium is an ideal introduction to such a diverse multi faceted field *The Art of iPhone Photography* Bob Weil,Nicki Fitz-Gerald,2013-08-21 The Art of iPhone Photography explores how 45 of today s best iPhoneographers from around the world conceived composed and created some of their finest and best known pieces all in their own words Through an understanding of the artists visions creative decisions and techniques beginning through advanced iPhoneographers will immediately be able to apply what they learn and take their own photographic art to the next level Key features of the book include A wide variety of styles and subjects Landscapes street photography abstracts architecture portraits collages concept pieces etc Detailed tutorials Example artworks from authors and contributing photographers accompanied by descriptions of how each piece was created from both a creative and technical standpoint Explanations for practical use of nearly 100 apps including BlurFX Camera Iris Photo Suite now Laminar Juxtaposer Photogene2 Pixlr o matic ScratchCam FX Snapseed Superimpose and TouchRetouch iPhoneography gallery A stunning showcase of works by notable iPhoneographers Always on always at hand and inconspicuously deployed today s smartphones empower us to record the world in ever newer and more personal ways By leveraging the photo editing applications found on the iPhone professional and amateur photographers alike are able to create not only editorial imagery but also creative art Nicki Fitz Gerald and Bob Weil at iPhoneographyCentral.com have built a community dedicated to the burgeoning collaboration between art and technology that is iPhoneography Their site and now this book offer extensive in depth tutorials both for budding iPhoneographers looking to advance their craft and professionals attempting to harness a new toolkit in service of their vision What they bring to the table is their belief that revealing the man behind the curtain does not diminish the teacher Technique does not the artist make but it does enable the newcomer to find his or her own voice With thousands of apps available and more flooding the market daily every new iPhoneographer wonders What apps should I use The answer to that question is so complex with so many variables that an illustrated tutorial such as this becomes an invaluable tool There is really nothing like it It does not offer the advice of a single artist or showcase images from a small artistic segment Indeed it offers up stories knowledge tips and secrets from many of the key players in the formation of this movement showcasing more than 40 artists and tutorials and 80 pages of iPhonic art Daria Polichetti Co Founder of Los Angeles Mobile Arts Festival **The New York Times Index** ,2009
