Artisans And Fair Trade Crafting Development:

Artisans and Fair Trade Mary A. Littrell, Marsha A. Dickson, 2012-03 Addresses the cultural conditions under which artisan work provides a feasible income alternative to other employment options Offers a methodology for assessing the socio economic impacts of fair trade artisan work After agriculture and tourism artisan work provides the next most significant source of income in many developing countries Yet because of its image as a soft or frivolous industry some politicians and development professionals question whether the handcraft sector is worthy of investment An opposing view holds that the creation of sustainable employment opportunities for poor people and a positive alternative to mass production outweighs the costs Until now the debate has been hampered by a lack of industry data The apparel group MarketPlace Handwork of India serves as the perfect case study to provide this missing information Like many fair trade companies it has dual goals to generate income in the global marketplace and foster the empowerment of the low income workers who run and staff the business In conducting interviews with MarketPlace s artisans managers and founders Littrell and Dickson produced an in depth socio economic audit of the group over time The result *Artisans and Fair Trade* provides a quantitatively and qualitatively illuminating study of fair trade impacts and a methodology that is sure to inform current assessment practices in social entrepreneurship and business social responsibility

Artisans and Fair Trade Mary Ann Littrell, Marsha Ann Dickson, 2010 Much has been written about the role of artisan production in promoting socio economic development especially for poor women but there is surprisingly little empirical work that documents the outcomes of artisan and craft work especially under fair trade conditions *Artisans and Fair Trade* helps close the gap Sue Ellen M Charlton Professor of Political Science Colorado State University and author *Comparing Asian Politics and Women in Third World Development* Provides a vivid portrayal of the lives and aspirations of women handicraft workers in India and reveals how fair trade relations can strengthen individual and collective capabilities Laura T Reynolds Co Director Center for Fair Alternative Trade and Professor Sociology Department Colorado State University An inspirational case study of a fair trade textile group in Mumbai set in the context of the broader ethical certification movement Quantitative and qualitative studies of the artisans lives emphasizes the impact that collaborative production and direct market access has on these remarkable women Charlotte Opal co author *Fair Trade Market Driven Ethical Consumption and Standards Committee Fairtrade Labelling Organizations FLO* Presents a thorough thoughtful and compelling assessment of the impacts of fair trade practices on the artisans who form its base hopefully it will bring increased support for cultural industries and decent work for the creative and skilled artisans of the world Judy Prater Project Director Kala Raksha Vidhyalaya After agriculture and tourism artisan work provides the next most significant source of income in many developing countries Yet because of its image of a soft or frivolous industry some politicians and development professionals question whether the handcraft sector is worthy of investment An opposing view holds that the creation of sustainable employment opportunities for poor people and a positive

alternative to mass production outweighs the costs Until now the debate has been hampered by a lack of industry data The apparel group MarketPlace Handwork of India serves as the perfect case study to provide this missing information Like many fair trade companies it has dual goals to generate income in the global marketplace and foster the empowerment of the low income workers who staff the business In conducting interviews with MarketPlace s artisans managers and founders Littrell and Dickson produced an in depth socio economic audit of the group over time The result Artisans and Fair Trade provides a quantitatively and qualitatively illuminating study of fair trade impacts and a methodology that is sure to inform current assessment practices in social entrepreneurship and business social responsibility Handbook of Research on Fair Trade Laura T. Bennett, 2015-02-27 Fair trade critiques the historical inequalities inherent in international trade and seeks to promote social justice by creating alternative networks linking marginalized producers typically in the global South with progressive consumers typically in the global North **Rethinking Displacement: Asia Pacific Perspectives** Ruchira Ganguly-Scrase, Kuntala Lahiri-Dutt, 2016-04-08 This book responds to the need to explore the multitude of interconnected factors causing displacements that compel people to move within their homelands or traverse various borders in the contemporary world that is characterised by extensive and rapid movements of people It addresses this need by bringing together historical and contemporary accounts and critical examinations of the displaced by articulating the commonalities in their lived experiences It accomplishes the task of charting a new path in displacement studies by offering a number of studies from interdisciplinary and diverse methodological approaches comprising ethnographic and qualitative research and literary interpretations to emphasise that although the forms and conditions of mobility are highly divergent individual experiences of displacement and placelessness offer a critical challenge to the artificial categorisations of people s movements Each chapter adds insights into the different configurations of displacement and placement and offers fresh interpretations of migration and dislocation in today s rapidly changing world The contributors critically examine a variety of displacement processes and experiences in the context of war tourism neoliberal policies of development and the impact of various agro forestry policies They focus on a range of countries enabling a thorough comparative analysis in terms of scope and range of examples and methods of analysis This book makes an original contribution to the growing body of literature on displacement and will appeal to a wide readership including advanced undergraduates and graduate students and professors in disciplines such as human geography development studies sociology and anthropology regional studies and comparative impact assessment **The Handbook of Fashion Studies** Sandy Black, Amy de la Haye, Joanne Entwistle, Regina A. Root, Agnès Rocamora, Helen Thomas, 2014-01-02 The Handbook of Fashion Studies identifies an innovative spectrum of thematic approaches key strands and interdisciplinary concepts that continue to push forward the boundaries of fashion studies The book is divided into seven sections Fashion Identity and Difference Spaces of Fashion Fashion and Materiality Fashion Agency and Policy Science Technology and New fashion Fashion and Time and Sustainable Fashion in a Globalised

world Each section consists of approximately four essays authored by established researchers in the field from the UK USA Netherlands Sweden Canada and Australia The essays are written by international subject specialists who each engage with their section s theme in the light of their own discipline and provide clear case studies to further knowledge on fashion This consistency provides clarity and permits comparative analysis The handbook will be essential reading for students of fashion as well as professionals in the industry

Fair Trade Ariana Agrios,2019-12-15 Fair trade is intended to help producers in developing countries achieve better working and trading conditions while maintaining certain environmental standards This is achieved through arrangements with distributors around the world With the influx of fair trade goods on grocery store shelves and restaurant menus one would assume an overall positive trend in trade conditions is occurring However numerous concerns continue to surround fair trade as readers will learn They will consider whether it benefits all developing countries and markets equally and analyze the extent to which it is effective at protecting the environment They will develop intelligent opinions on which conditions will make trade as fair as possible

Sustainable Fashion and Textiles in Latin America Miguel Ángel Gardetti,Rosa Patricia Larios-Francia,2021-07-29 This book highlights the sustainable aspects of fashion and textiles in Latin America and discusses how the manufacturing and consumption of textile products and fashion are significant sources of environmental damage It addresses important issues of water and energy consumption in the textile and fashion industry and using case studies presents how social responsibilities in consumer behavior can help in minimizing these environmental issues for a better future

Fair Trade and Social Justice Mark Moberg,Sarah Lyon,2010-06-01 By 2008 total Fair Trade purchases in the developed world reached nearly 3 billion a five fold increase in four years Consumers pay a fair price for Fair Trade items which are meant to generate greater earnings for family farmers cover the costs of production and support socially just and environmentally sound practices Yet constrained by existing markets and the entities that dominate them Fair Trade often delivers material improvements for producers that are much more modest than the profound social transformations the movement claims to support There has been scant real world assessment of Fair Trade s effectiveness Drawing upon fine grained anthropological studies of a variety of regions and commodity systems including Darjeeling tea coffee crafts and cut flowers the chapters in *Fair Trade and Social Justice* represent the first works to use ethnographic case studies to assess whether the Fair Trade Movement is actually achieving its goals Contributors Julia Smith Mark Moberg Catherine Ziegler Sarah Besky Sarah M Lyon Catherine S Dolan Patrick C Wilson Faidra Papavasiliou Molly Doane Kathy M Closkey Jane Henrici

McLaren, 2019 A wide range of issues besieges women globally including economic exploitation sexist oppression racial ethnic and caste oppression and cultural imperialism This book builds a feminist social justice framework from practices of women's activism in India to understand and work to overcome these injustices The feminist social justice framework provides an alternative to mainstream philosophical frameworks that promote global gender justice for example universal human rights economic projects such as microfinance and cosmopolitanism McLaren demonstrates that these frameworks are bound by a commitment to individualism and an abstract sense of universalism that belies their root neo liberalism

Arguing that these frameworks emphasize individualism over interdependence similarity over diversity and individual success over collective capacity McLaren draws on the work of Rabindranath Tagore to develop the concept of relational cosmopolitanism Relational cosmopolitanism prioritizes our connections while crucially acknowledging the reality of power differences Extending Iris Young's theory of political responsibility McLaren shows how Fair Trade connects to the economic solidarity movement The Self Employed Women's Association and MarketPlace India empower women through access to livelihoods as well as fostering leadership capabilities that allow them to challenge structural injustice through political and social activism Their struggles to resist economic exploitation and gender oppression through collective action show the vital importance of challenging individualist approaches to achieving gender justice The book is a rallying call for a shift in our thinking and practice towards reimagining the possibilities for justice from a relational framework from independence to interdependence from identity to intersectionality and from interest to socio political imagination Sustainable Luxury and Craftsmanship Miguel Ángel Gardetti,Ivan Coste-Manière,2020-03-30 This book explores the intricate relationship between luxury and craftsmanship using brand based case studies and consumer behavior to do so In addition to revealing how the artification of luxury affects consumer behavior with branding and traditions it discusses how sustainable luxury could not only offer a vehicle for more respect for the environment and social development but could also be a metaphor for the cultures art traditions and innovations of various nationalities continuing the legacy of local craftsmanship Safe Haven?: A History of Refugees in America David W. Haines,2012-03 The notion of America as land of refuge is vital to American civic consciousness yet over the past seventy years the country has had a complicated and sometimes erratic relationship with its refugee populations Attitudes and actions toward refugees from the government voluntary organizations and the general public have ranged from acceptance to rejection from well wrought program efforts to botched policy decisions Drawing on a wide range of contemporary and historical material and based on the author's three decade experience in refugee research and policy Safe Haven provides an integrated portrait of this crucial component of American immigration and of American engagement with the world Covering seven decades of immigration history Haines shows how refugees and their American hosts continue to struggle with national and ethnic identities and the effect this struggle has had on American institutions and attitudes *The Politics of Collective Advocacy in India* Nandini Deo,Duncan McDuie-Ra,2011 India's vibrant civil society sector has become a powerful symbol of political participation in the country It comprises a wealth of media organizations caste and religion based associations farmers groups labor unions social service organizations and an almost limitless number of development organizations Given this vibrancy it is difficult to grasp the characteristics of civil society at the transnational or even the national level Delving beneath the progressive surface to the local level one finds a murky and multifaceted world of competing interests compromises uneasy alliances and erratic victories The Politics of Collective Advocacy in India critically examines the enormous gap between the ways collective action in India is studied and the ways it

operates on the ground It identifies what influences the relative success or failure of different movements the tools activists use to overcome obstacles the traps that derail efforts to frame politicize and act on certain issues and assumptions about particular forms of action The authors synthesize the experiences of a number of organizations and movements to identify the most effective tools that civil society actors at all levels can use to achieve positive social change **The Politics of Fair**
