Colonization Or Globalization? Silvia Nagy-Zekmi, Chantal J. Zabus, 2010-01-01 The essays in this volume present new scholarship on imperial expansion through colonization and globalization from a variety of postcolonial perspectives Most of the articles are grounded in literary works National identities and imageries are scrutinized deconstructing the modernist and utopian idea of a nation as a site of homogeneity and reviewing the importance of the changing concept of identity in the different phases of decolonization

The Global Politics of Globalization Barry K. Gills, 2013-09-13 Are we moving inexorably towards a new empire or is global civil society transforming global politics into a new cosmopolis In *The Global Politics of Globalization* the alternatives of Empire and Cosmopolis are counter poised as representative of two antithetical conceptions and practices of world order both historically and in the present era and each expresses an alternative idea of human unity and community Today global politics is embroiled in a clash of globalizations a clash between these two opposed forms of world order The contributions in the debate range from deep historical reflections on world civilizations critique of neoliberal economics and imperialism new thinking on the ideals and practices of global citizenship the philosophical basis for cosmopolitan politics and the emergence of new forms of global social forces and movements Previously published as a special issue of *Globalizations* this book brings together a very distinguished set of contributors to explore and debate the relationship between globalization processes and world order in light of recent controversies over the return of empire

The Routledge International Handbook of Globalization Studies Bryan Turner, Robert Holton, 2015-12-22 The second edition of the Routledge International Handbook of Globalization

Studies offers students clear and informed chapters on the history of globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization The handbook examines many negative aspects new wars slavery illegal migration pollution and inequality but concludes with an examination of responses to these problems through human rights organizations international labour law and the growth of cosmopolitanism There is a strong emphasis on interdisciplinary approaches with essays covering sociology demography economics politics anthropology and history The second edition has been completely revised and features important new thinking on themes such as Islamophobia and the globalization of religious conflict shifts in global energy production such as fracking global inequalities fiscal transformations of the state and problems of taxation globalization and higher education and an analysis of the general sense of catastrophe that surrounds contemporary understandings of the consequences of a global world Puja Junior Highschool (SUPERTET) Sahayak Adhyapak evam Pradhanadhyapak (Assistant Teacher & Headmaster Exam) English Puja Editorial Board,2021-11-30 Comprehensive guide for Junior High School English Assistant Teacher Headmaster Exam featuring in depth theory practice questions previous year papers and concept driven explanations enriched with tables charts and diagrams Tailored for Junior SUPERTET and other state level teaching recruitment exams **Environment and Humanities: An Interdisciplinary**

Discourse Vandana Beniwal,Poonam Mehra,2024-08-14 In an era marked by unprecedented environmental challenges from climate change to biodiversity loss the need for comprehensive understanding and thoughtful solutions has never been more urgent The intersection of human culture philosophy history and the natural world has become a critical space for inquiry Environment and Humanities An Interdisciplinary Discourse seeks to explore this nexus offering a platform for dialogue between the sciences and the humanities recognizing that both are essential to confronting our shared environmental crises This book is the result of a collaborative effort to bridge the gap between these traditionally distinct fields The research papers contained within provide diverse perspectives on how human values ethics and historical experiences shape our relationship with the environment and in turn how environmental changes influence cultural and societal transformations We believe that engaging with environmental issues from an interdisciplinary viewpoint is not just beneficial but necessary for fostering the kinds of solutions that are both sustainable and equitable The contributions of scholars from various disciplines literature philosophy history anthropology psychology and environmental studies demonstrate the vast range of human experience that is intricately tied to the land water air and ecosystems around us Through this dialogue we aim to illustrate how environmental concerns can no longer be viewed through a single lens but must be understood as a complex and dynamic web of social ethical and ecological factors Ultimately Environment and Humanities calls for a reevaluation of how humanity perceives its place within the natural world By fostering an interdisciplinary discourse we hope to inspire new ways of thinking both within academic circles and in broader society toward a more responsible and compassionate coexistence

with our planet Revisiting the Global Imaginary Chris Hudson, Erin K. Wilson, 2019-04-02 Manfred B Steger's extensive body of work on globalization has made him one of the most influential scholars working in the field of global studies today. His conceptualization of the global imaginary is amongst the most significant developments in thinking about globalization of the last three decades. *Revisiting the Global Imaginary* pays tribute to Steger's contribution to our intellectual history with essays on the evolution, ontological foundations and methodological approaches to the study of the global imaginary. The transdisciplinary framework of this field of enquiry lends itself to investigation in diverse sites. This volume of essays explores practices associated with the reproduction of the global imaginary in such diverse sites as mobile money, Irish pubs, cyber capitalism, urban space, music in post-apartheid South Africa and global political movements amongst others. **Realizing Hope** Michael Albert, 2006-04-04 Albert's economic replacement for capitalism, Parecon, has already become well known. Here he goes further, offering insights about how whole areas of life might be transformed in a new society. *Menace to Empire* Moon-Ho Jung, 2023-12-12 *Menace to Empire* is a profoundly original and ambitious book, a history of race and empire that traces both the colonial violence and the anticolonial rage that the United States spread across the Pacific between the Philippine American War and World War II. Author Moon Ho Jung argues that the US national security state as we know it was born out of attempts to repress and silence colonized subjects from the Philippines and Hawai'i to California and beyond, whose anticolonial aspirations challenged US claims to sovereignty. Jung examines how the contradictions of race, nation and empire generated waves of revolutionary movements spanning the Pacific: anticolonial, antiracist and labor movements that exposed and confronted the US empire. In response, the US state closely monitored and brutally suppressed those movements by racializing particular politics and distinct communities as seditious, exaggerating fears of pan-Asian solidarities and sowing anti-Asian racism under the guise of national security. *Menace to Empire* transforms familiar themes in American history to highlight the critical role of colonial violence in the formation of radical movements and the antiradical origins of anti-Asian racism. Radicalized by their opposition to the US empire and racialized as threats to US security, peoples in and from Asia pursued a revolutionary politics that gave rise to the national security state, the heart and soul of the US empire ever since. Provided by publisher *Making Progress* C. Leigh Anderson, Janet W. Looney, 2002-01-01 While a universal definition of progress has proved elusive, measures of progress have been defined and grouped into the broad areas of material wealth, social relations, technical capacity and moral, aesthetic and intellectual sensibilities. However, not until the Progress Project, whose results are gathered here, has the impact of progress on public policy in these realms been systematically explored. In this volume, noted scholars in economics, government, education, technology, literature, culture and religion, among other fields, discuss the meaning and measurement of progress in their areas of specialty. They assess particular policies that have either promoted or retarded progress and provide recommendations for policy processes or instruments that better reflect the nature of forward movement in the current era. *Making Progress* is an important contribution to both the theoretical and

practical literature on public policy it is a resource for scholars and students as well as a guide for policymakers analysts and advocates who help craft those policies in the name of progress **The Imperial Messenger** Belén Fernández,2011-11-01
