with learning disabilities are affected by significantly more health problems than the general population and are much more likely to have significant health risks Yet evidence suggests they are not receiving the same level of health education and health promotion opportunities as other members of society This important interdisciplinary book is aimed at increasing professional awareness of the importance of health promotion activities for people with intellectual and developmental disabilities Written by an international board of experts it is a thorough and comprehensive guide for students professionals and carers The book considers a variety of challenges faced by those with intellectual disabilities from physical illnesses such as diabetes epilepsy and sexual health issues through to issues such as addiction mental health and ageing Contributors Jim Blair Penny Blake Malin Broberg Michael Brown Eddie Chaplin Bob Davies Gillian Eastgate Paul Fleming Dora Fisher Linda Goddard Tamar Heller John Heng Thanos Karatzias Mike Kerr Nick Lennox Tadhg MacIntyre Beth Marks Jane McCarthy Judith Moyle Karen Nankervis Ruth Northway Joseph O Grady Renee Proulx Janet Robertson Cathy Ross Jasmina Sisirak Eamonn Slevin David S Stewart William F Sullivan Beverley Temple Hana Vlkov Henny van Schrojenstein Lantman de Valk I highly recommend this book to anyone working directly with people with an intellectual disability as well as professionals academics and students who strive to promote issues and improve the lives of people with intellectual disabilities and their families Agnes Lunny OBE Chief Executive of Positive Futures Northern Ireland The editors and authors have done practitioners a great favour in bringing together in one volume a comprehensive account of how children and adults with intellectual disabilities can be supported to lead healthier lives Roy McConkey Professor of Developmental Disabilities University of Ulster Northern Ireland This timely and important book synthesises current knowledge about health promotion interventions for people with intellectual disabilities Written by leading researchers and practitioners it should be on the bookshelves of everyone concerned with addressing the stark inequalities in health experienced by people with intellectual disabilities around the world Eric Emerson Professor of Disability Population Health University of Sydney Australia and Emeritus Professor of Disability and Health Research Lancaster University UK This book is current and different from other textbooks I have used before The book is pitched at a very easy to understand level and any healthcare professional or student working with people with intellectual and developmental disabilities can use it The content is very up to date and relevant The use of comprehensive authors with differing backgrounds demonstrates the textbook has a wide range of expertise and knowledge packed into it that makes the book very relevant learning disabilities practice I will definitely be recommending this textbook to undergraduate nursing students in Learning Disabilities Dorothy Kupara Lecturer in Learning Disabilities Nursing University of West London

Social Behavior and Skills in Children Johnny L. Matson, 2009-09-18

That children are capable of pathology not only such conditions as ADHD and learning disabilities but also such adult disorders as anxiety and depression stands as a defining moment in psychology's recent history Within this recognition is the understanding that the social skills deficits that accompany these disorders must be targeted for assessment and treatment

to ensure optimal functioning in school with peers and in later transitions to puberty and adulthood Social Behavior and Skills in Children cuts across disciplinary lines to clarify the scope of assessment options and interventions for a wide range of disorders A panel of leading scholars reviews current research discusses social deficits unique to specific disorders and identifies evidence based best practices in one authoritative approachable reference This volume Discusses theoretical models of social skills as they relate to assessment and treatment Analyzes the etiology of social behavior problems in children and the relation between these problems and psychopathology Reviews 48 norm referenced measures of social skills in children Examines the range of evidence based social skills interventions Addresses challenging behaviors such as aggression and self injury Focuses on specific conditions including developmental disabilities conduct disorders ADHD chronic medical illness depression anxiety and severe psychopathology Social Behavior and Skills in Children is an essential reference for university libraries as well as a must have volume for researchers graduate students and clinicians in child and school psychology special education and other related fields
