Rosenbaum, 2004-03-04 Georgian Bloomsbury completes the literary history of Old Bloomsbury that began with Victorian Bloomsbury 1987 and continued with Edwardian Bloomsbury 1994 Covering the years between the First Post Impressionist Exhibition and World War I the book describes and analyzes interrelated literary works by Roger Fry Desmond MacCarthy Clive Bell E M Forster Lytton Strachey Leonard Woolf and Virginia Woolf The works considered include fiction criticism essays and polemics as well as autobiography journalism and literary history that members of the Bloomsbury Group wrote between 1910 and 1914 *Lesbian Scandal and the Culture of Modernism* Jodie Medd, 2012-09-10 This text analyzes the legal social and literary impact of lesbian scandal on early twentieth century British and Anglo American culture *Mapping the Modern Mind: Virginia Woolf's Parodic Approach to the Art of Fiction in "Jacob's Room"* Lindy van Rooyen, 2012-05 In this study the author conducts a close reading of Virginia Woolf's first experimental novel Jacob's Room 1922 Her reading is based on the fundamental premise that the novel is an exploration of fictional form rather than an exposition of any preconceived idea Jacob's Room is an essentially modernist text and is characterised by extensive genre mixing typical of the art of fiction in the early 20th century Throughout her study the author analyses the extent to which the novel transgresses the boundaries of the novelistic genre She explores the generic interface between the novel and those genres which are deemed to be innate to Virginia Woolf's sensibility i.e. the journalistic essay biography and impressionist painting The premise of this study leads the author to read the novel on two levels of significance On the narrative surface level of the novel Woolf constructs the tragic life of a promising young Englishman Jacob Flanders who dies in the First World War Simultaneously on the metafictional level of significance Woolf through her garrulous narrator mocks and evaluates the actions of her characters experimenting with various points of view in an attempt to define the character of her protagonist Jacob's room is thus conceived as a mental space in which a modern writer's mind is mapped The central aesthetic question which is debated in this room or forum relates to the essential art of modern fiction in general and the efficiency of characterisation in fiction in particular It is argued that Virginia Woolf probes into the epistemic question of the essence of modern man and in an attempt to capture the essence of her protagonist speculates on the corresponding literary question how and to what extent the soul of man can be represented in fiction The author uses this generic approach to the novel as a broad structuring

principle for her study of *Jacob's Room*. After discussing the socio-political context of modernism in the early 20th century including the impact of the First World War on modernist writing, she focuses her study on those aspects of Woolf's fiction which are deemed fundamental to the narrative strategy in *Jacob's Room*: i.e. the role and nature of Woolf's humour within the context of modernism; the nodes or clusters of metaphors and symbols recurring in the text; the role of the narrator as toastmaster of the debate on character and fiction in *Jacob's Room*; the extent to which the novel parodies the new biography of the early twentieth century; and the extent to which Woolf transvaluates the tools of impressionist painting into modernist fiction.

The Oxford Encyclopedia of British Literature David Scott Kastan, 2006-03-03 From folk ballads to film scripts this new five volume encyclopedia covers the entire history of British literature from the seventh century to the present focusing on the writers and the major texts of what are now the United Kingdom and the Republic of Ireland. In five hundred substantial essays written by major scholars, the *Encyclopedia of British Literature* includes biographies of nearly four hundred individual authors and a hundred topical essays with detailed analyses of particular themes, movements, genres, and institutions whose impact upon the writing or the reading of literature was significant. An ideal companion to *The Oxford Encyclopedia of American Literature*, this set will prove invaluable for students, scholars, and general readers. Radio Modernism Todd Avery, 2016-12-05 *Radio Modernism* marries the fields of radio studies and modernist cultural historiography to the recent ethical turn in literary and cultural studies to examine how representative British writers negotiated the moral imperative for public service broadcasting that was crafted, embraced, and implemented by the BBC's founders and early administrators. Weaving together the institutional history of the BBC and developments in ethical philosophy as mediated and forged by writers such as T. S. Eliot, H. G. Wells, E. M. Forster, and Virginia Woolf, Todd Avery shows how these and other prominent authors' involvement with radio helped to shape the ethical contours of literary modernism. In so doing, Avery demonstrates the central role radio played in the early dissemination of modernist art and literature and also challenges the conventional assertion that modernists were generally elitist and anti-democratic. Intended for readers interested in the fields of media and cultural studies and modernist historiography, this book is remarkable in recapturing for a twenty-first century audience the interest, fascination, excitement, and often consternation that British radio induced in its literary listeners following its inception in 1922.

**The Cambridge Introduction to Virginia Woolf** Jane Goldman, 2006-09-14 For students of modern literature, the works of Virginia Woolf are essential reading. In her novels, short stories, essays, polemical pamphlets, and in her private letters, she explored, questioned, and refashioned everything about modern life: cinema, sexuality, shopping, education, feminism, politics, and war. Her elegant and startlingly original sentences became a model of modernist prose. This is a clear and informative introduction to Woolf's life, works, and cultural and critical contexts, explaining the importance of the Bloomsbury group in the development of her work. It covers the major works in

detail including *To the Lighthouse* *Mrs Dalloway* *The Waves* and the key short stories As well as providing students with the essential information needed to study Woolf Jane Goldman suggests further reading to allow students to find their way through the most important critical works All students of Woolf will find this a useful and illuminating overview of the field

**Fiction: Humour, Modernism and Narrative Form in Virginia Woolf's "Jacob's Room" (1922)** Lindy van Rooyen, 2012-02-15 *Inhaltsangabe* Introduction Virginia Woolf is not a popular writer Despite a fierce pride in her work it was never her ambition to be one Most people have heard of her work vaguely associating it with the second wave of the women's liberation movement in the 1970s and the type of fiction that is commonly called difficult and few people unfamiliar with her work would associate her reputation with humour These are some of the first impressions of a writer who is now hailed by scholars of English literature as one of the icons of modernism To speak of first impressions of Virginia Woolf's work is not as fatuous as it may seem After all Woolf's fiction was initially founded on impressions and I hope to show that one of the distinctive characteristics of her oeuvre compared to other modernists like T. S. Eliot W. B. Yeats or James Joyce is the intensely visual nature of her art Furthermore she is often associated with a movement of modern painting in the early twentieth century known as Post Impressionism including painters like C. Zanne Picasso and Georges Braque Finally laughter in all its registers whether merry cruel or parodic runs like a golden thread throughout the texture of her essays short stories and novels as satire does more generally throughout modernism I have chosen Virginia Woolf's third novel *Jacob's Room* 1922 as the focus of my study of Woolf's modernism It is not her best known novel as most critical acclaim is reserved for Mrs

Dalloway 1925 or To the Lighthouse 1927 She started writing fiction in 1915 just as the First World War started and for four reasons I believe that Jacob's Room is the perfect starting point from which to survey Woolf's particular contribution to the Modernist Movement Firstly the social catastrophe associated with the First World War is widely considered to be the decisive historic event in the collective consciousness of early twentieth century Europe its effects reverberating throughout the literary and visual arts in the 1920s Secondly Jacob's Room was published in a year which falls nicely within the boundaries of the period of High Modernism which culminated in the decades between 1910 and 1930 Indeed the year of 1922 marks the publication of two other seminal modernist works T S Eliot's Wasteland and James Joyce's Ulysses Thirdly Jacob's Room is commonly regarded as Virginia Woolf's first experimental novel in which she in her own phrase *The Reader's Art* Mark Goldman,2015-06-03 No detailed description available for The Reader's Art *Reader's Guide to British History* David Loades,2020-12-17 The Reader's Guide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6-12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication [Learned Lives in England, 1900-1950](#) William C.
