Age Speed Learning Thrive More Faster Now:

The Age of Speed, 2010 *Summary of The Ant and the Elephant by Vince Poscente* getAbstract AG, 2014-12-22

Former Olympian Vince Poscente's entertaining short parable works with the metaphors of a determined little ant as your conscious mind and a habit-driven elephant as your subconscious mind. You make hundreds of small decisions daily mostly without thinking because your subconscious runs your life. Yet these accumulated choices put most people on safe, predictable, boring paths of mediocrity. When you see glimpses of what you could become, heed those insights. Don't revert to your old ways just because change is hard and progress may be slow. With the right mind set and determination, think of an ant's diligence; you can overcome inertia and break through. Turn to Poscente's five-step action plan based on clear vision, commitment, consistency, confidence, and control. Align your conscious goals with those of your subconscious so the ant rules the elephant. Convince your inner, more conservative self that your goal is not only possible but also inevitable. getAbstract recommends this accessible, heartwarming story to anyone seeking to reduce fear, alter old habits, and change for the better. This officially licensed summary of *The Ant and the Elephant* was produced by getAbstract, the world's largest provider of book summaries. getAbstract works with hundreds of the best publishers to find and summarize the most relevant content out there. Beating the Global Odds Paul A. Laudicina, 2012-09-04. The Answer to Global Overload. Contending with the 24/7 news cycle and an endless barrage of choices and information has stymied leadership and decision-making strategies among those at the top. But we all know this is not just a problem for the elite. The broad-based reaction to this chaotic, unmanageable assault has been to retrench and to focus on immediate, controllable decisions. In the process, we lose sight of the horizon. More dangerous still is the shift we've seen from value creation to wealth creation, where information technology 1.0 has enabled a transaction-based society in which the deal is more important than the value it drives or the relationships it is based on. On our current path, the odds of a better future are slim. What we need is a new value proposition. *Beating the Global Odds* is the answer to the dangers of too much of a good thing. There's no going back, but there is the opportunity to set things right. In this book, Paul A. Laudicina, Managing Partner and Chairman of the Board of global consulting firm A.T. Kearney, provides a fast-paced and engaging tour of how we got to this point and what we can do about it. Drawing on examples from everything from world history and current media to anecdotes from his vast network of CEOs and the world's most innovative thinkers, Laudicina helps bring our world of seemingly fuzzy and disconnected pixels into sharp focus. The result is a compelling case for change and call to action, not only for global leaders but also for everyone who struggles with the question of how we can inspire and seize a better future, how we can beat the global odds.
