Times Arrows Scientific Attitudes Toward Time By Richard Morris:

Time's Arrows Richard Morris, 1986-01-07 This volume explores Western views on time from ancient Greece through the Middle Ages going on to modern scientific concepts including relativity biological time cosmic time and whether there is a beginning or an end to time Starting with ancient cyclical theories of time the author moves on to more modern topics such as the theory of linear time the notion that velocity is a function of time introduced by Galileo Newton's mathematical explanations of time the laws of thermodynamics in relation to time and the theory of relativity 448 , The New York Times Book Review , 1986 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback From Learning Theory to Connectionist Theory Alice F. Healy, Stephen Michael Kosslyn, Richard M. Shiffrin, 1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informa company Ecology & the Jewish Spirit Ellen Bernstein, 1998 What is nature's place in our spiritual lives In today's modern culture we've become separated from the sacredness of the natural world This book offers a different eye and soul opening way of viewing our religion A perspective grounded in nature and rich in insights for seekers of all faiths Respect for the holiness of Creation our duty to protect the natural world reverence for the land a focus on nature is part of the fabric of Jewish thought Here innovative contributors bring us a richer understanding of the long neglected themes of nature that are woven through the biblical creation story ancient texts traditional law the holiday cycles prayer mitzvot good deeds and community Ecology the Jewish Spirit explores the wisdom that the Jewish tradition has to offer all of us to help nature become a sacred spiritual part of our own lives Contributors Eileen Abrams Bradley Shavit Artson Philip J Bentley Ellen Bernstein Ellen Cohn Eliezer Diamond Shira Dicker David Ehrenfeld Charles Fenyvesi Shamu Fenyvesi Dan Fink Barry Freundel David Gedzelman Everett Gendler Neil Gillman Neal Joseph Loevinger Victor Raboy Debra J Robbins Robert Sand Marc Sirinsky Jeff Sultar Marc Swetlitz Lawrence Troster Disrupted Patterns Theodore E. D. Braun, John Aloysius McCarthy, 2000 This collection of essays explores the significance of modern chaos theory as a new paradigm in literary studies and argues for the usefulness of borrowings from one discipline to another Its thesis is that external reality is real and is not merely a social construct On the other hand this volume reflects the belief that literature as a social and cultural construct is not unrelated to that external reality The authors represented here furthermore believe that learning to communicate across disciplinary divides is worth the risk of looking silly to purists and dogmatists In applying a contemporary scientific grid to a by gone era the authors play out Steven Weinberg's exhortation to mind the clues to the past that cannot be obtained in any other way It is of course necessary to get the science right yet the essays in this collection do not seek to do science but rather to suggest that science and literature often share common assumptions and realities Thus there is no attempt to legitimize literary study through the adoption of a scientific approach Interaction

between the disciplines requires mutual respect and a willingness to investigate the broader implications of scientific research. Consequently, this volume will be of interest to students and scholars of the long eighteenth century whether the focus is on England (Locke, Milton, Radcliffe, Lewis) France (Crillon, Diderot, Marivaux, Montesquieu) or Germany (Kant, Moritz, Goethe, Fr. Schlegel). Moreover, given its multiple thrust in employing mythological, philosophical, and scientific notions of chaos, this volume will appeal to historians and philosophers of the European Enlightenment as well as to literary historians. The volume ultimately aspires to promote communication across centuries and across disciplines.

And So It Goes Charles J. Shields, 2024-06-04. Vonnegut's life was a fascinating tragicomedy worthy of his best novels. A superbly researched and above all very entertaining biography. Blake Bailey, New York Times bestselling author of Philip Roth: The Biography. A New York Times Notable Book. A Washington Post Notable Nonfiction Book. In 2006, Charles Shields reached out to Kurt Vonnegut in a letter asking for his endorsement for a planned biography. The first response was no. A most respectful demurring by me for the excellent writer Charles J. Shields, who offered to be my biographer. Propelled by a passion for his subject and already deep into his research, Shields wrote again, and this time to his delight, the answer came back: O.K. For the next year, which ended up being Vonnegut's last, Shields had access to Vonnegut and his letters. After four additional years of research and writing, *And So It Goes* is the first truly exacting look into the life of a man who has fascinated so many. Esquire: An incisive, gossipy page-turner of a biography. Janet Maslin, The New York Times: A triumphant biography. From his harrowing survival of the Dresden firebombing through forty years of culture clashes and domestic battles, here is the Vonnegut we all thought we knew, and the man we never got to see: a writer of searing wit and wisdom, of driving ambition and perhaps most of all of aching loneliness. Jess Walter, 1 New York Times bestselling author of *Beautiful Ruins*: An engaging, surprising, and empathetic page-turner. Deirdre Donahue, USA Today: Adroit literary analysis that highlights obscure or overlooked influences on Vonnegut. With access to more than 1,500 letters, Shields conducted hundreds of interviews to produce this engrossing, definitive biography. Publishers Weekly: starred review.

Circular Narratives in Modern European Literature Juan Luis Toribio Vazquez, 2022-06-16. Breaking with linearity, the ruling narrative model in the Jewish-Christian tradition since the ancient world, many 20th-century European writers adopted circular narrative forms. Juan Luis Toribio Vazquez shows this trend was not a unified nor conscious movement but rather a series of works arising sporadically in different countries at different times, using a variety of circular structures to express similar concerns and ideas about the world. This study also shows how the renewed understanding of narrative form, leading to this circular trend, was anticipated by Nietzsche's critiques of truth, knowledge, language, and metaphysics, and especially by his related discussions of nihilism and the eternal recurrence. Starting with an analysis of the theory and genealogy of linear narrative, the author charts the emergence of Nietzsche's idea of eternal return, before then turning to the history of the circular narrative trend. This history is explored from its inception in the works of

August Strindberg Gertrude Stein and Azor n through its development in the interwar years by writers such as Raymond Queneau and Vladimir Nabokov to its full flowering in the work of authors James Joyce or Samuel Beckett among others and its later employment by post war writers including Alain Robbe Grillet Italo Calvino and Maurice Blanchot Through a series of close readings the book aims to highlight the various ways in which narrative circularity serves to break with an essentially teleological and theological thinking Finally Toribio Vazquez concludes by proposing a new typology of non linear narratives which builds on the work of recent narratologists
