The Early Reader in Children's Literature and Culture Jennifer Miskec, Annette Wannamaker, 2015-12-22 This is the first volume to consider the popular literary category of Early Readers books written and designed for children who are just beginning to read independently It argues that Early Readers deserve more scholarly attention and careful thought because they are for many younger readers their first opportunity to engage with a work of literature on their own to feel a sense of mastery over a text and to experience pleasure from the act of reading independently Using interdisciplinary approaches that draw upon and synthesize research being done in education child psychology sociology cultural studies and children's literature the volume visits Early Readers from a variety of angles as teaching tools as cultural artifacts that shape cultural and individual subjectivity as mass produced products sold to a niche market of parents educators and young children and as aesthetic objects works of literature and art with specific conventions Examining the reasons such books are so popular with young readers as well as the reasons that some adults challenge and censor them the volume considers the ways Early Readers contribute to the construction of younger children as readers thinkers consumers and as gendered raced classed subjects It also addresses children's texts that have been translated and sold around the globe examining them as part of an

increasingly transnational children's media culture that may add to or supplant regional ethnic and national children's literatures and cultures. While this collection focuses mostly on books written in English and often aimed at children living in the US, it is important to acknowledge that these Early Readers are a major US cultural export influencing the reading habits and development of children across the globe.

Leading a Culture of Reading Lorraine M. Radice, 2023-10-24 Engaged students achieve better reading success. Grounded in current research, this book provides resources and strategies to help educators improve literacy culture in their schools and inspire a love of reading in their students. Author Lorraine M. Radice demonstrates how educators can promote literacy through social media and shares ways in which all stakeholders can contribute to students' reading engagement. This book will help K-12 educators and instructional coaches understand how access to devices has dampened reading interest among K-12 students and consequently affected literacy. Create and launch a reading campaign. Become familiar with the research behind the role of social media in students' lives and discover how to use social media to support reading engagement. Develop ways for adults in a school community to reflect on and share their reading lives with students. Know the role of parents and caregivers in establishing and maintaining reading habits. Incorporate student leadership into literacy programs and have access to a toolkit for implementing leadership into reading campaigns. Create opportunities for visibility and school community participation that celebrate reading.
