Schoolhouse Gothic Sherry R. Truffin, 2009-03-26 The Schoolhouse Gothic undertaken by insiders and outsiders to the academy alike and embodied both in literature and in academic discourse draws on Gothic metaphors and themes in representing and interrogating contemporary American schools and educators Curses from the past take the form of persistent power inequities of race gender class and age and rather ironically the very Enlightenment that was to save the moderns from rigid ancient mystified hierarchies In Schoolhouse Gothic literature including works by Stephen King Flannery O Connor Toni Morrison Joyce Carol Oates and David Mamet school buildings classrooms and or offices function as traps or analogues to the claustrophobic family mansions monasteries and convents of old In Schoolhouse Gothic scholarship the trap is academic objectivity viewed not as a lofty goal but rather as an institutional strategy of concealment that blinds the scholar to his or her own prejudices and renders even the most well meaning complicit with inequitable power structures The combination of curse and trap common to the Gothic scenario produces paranoia violence and monstrosity In Schoolhouse Gothic literature schools turn students into psychopaths and machines In the scholarship the product is discourse or epistemic violence reified The Schoolhouse Gothic suggests at the very least that Americans have become increasingly uneasy about the role of the academy increasingly mistrustful of its guardians and increasingly convinced that something sinister lies behind its officially benevolent exterior *American Educational History Journal* J. Wesley Null, 2011-06-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history

The Publishers Weekly ,2009 *Dystopia & Education* Jessica A. Heybach, Eric C. Sheffield, 2013-04-01 Dystopia and Education Insights into Theory Praxis and Policy in an age of Utopia Gone Wrong provides an as of yet unexplored critical perspective for examining contemporary educational theory praxis and policy with particular reference to the current state of dehumanizing and often oppressive policy and practices that have come to demarcate the era of NCLB and RTT The authors in this collection employ dystopian themes found in literature film visual art and video games as the lens for that critical inquiry As such Dystopia and Education Insights into Theory Praxis and Policy is an essential contribution to the philosophical critical tradition in educational scholarship It is especially valuable because the inquiry undertaken is from a new perspective one that will extend the critical tradition into a yet unexplored arena Given the educational climate established by NCLB and RTT this collection is especially important to the ongoing critical analysis of such policy mandates There is also a significantly important timeliness to this book given NCLB s utopian expectation of universal academic

proficiency among American schoolchildren by the year 2014 as educators race to achieve such a noble yet naive goal this collection of essays examines the educational environment that has been enacted to achieve such ends and describes our current state as a utopia gone wrong
