Guglielmi,2017-12-07 The present book is the first work to highlight Catherine Doherty's vocation to spiritual motherhood Drawing upon primary archival sources the author traces Catherine's development as a staritsa or spiritual mother in the Russian Eastern tradition Of particular interest are the chapters dealing with Catherine's exercise of spiritual motherhood for priests and laity alike Previously unpublished letters of spiritual direction between Catherine and her major spiritual directors offer the reader a privileged glimpse into the soul of this servant of God and her spiritual children as she grows in her vocation as staritsa For example in one striking letter Catherine describes how she guided a disillusioned young priest who was struggling with a drinking problem and temptations involving young women and was bordering on despair With clenched teeth I sailed into him first gently almost caressingly calling him back to Christ he once loved then more sternly then quietly He left full of thanks and some hope *PISA 2022 Results (Volume V) Learning Strategies and Attitudes for Life* OECD,2024-11-13 The OECD's Programme for International Student Assessment PISA does more than assess what students know PISA examines how they use their knowledge and skills to meet real life challenges offering invaluable insights into both the quality and equity of education worldwide In this final volume of the PISA 2022 initial report Volume V Learning Strategies and Attitudes for Life takes a deep dive into one of the most critical aspects of modern education students readiness for lifelong learning This volume explores how education systems prepare students to navigate and thrive in an unpredictable future focusing on their learning strategies motivation and self beliefs It also delves into the role of socio economic background gender and the support students receive from parents and teachers in shaping their readiness for sustained lifelong learning As education evolves to meet the challenges of tomorrow this volume provides crucial insights for educators and policy makers who want to foster resilient self directed learners who are ready to succeed in a rapidly changing world Spiritual Healing from Sexual Violence Debra Meyers,Mary Sue Barnett,2023-05-18 *Spiritual Healing from Sexual Violence* An Intersectional Guide is a collection of essays from survivors scholars activists spiritual leaders and social justice practitioners that offers numerous intersectional and culturally competent options for women men and non binary conforming adults to create their own safe healing conditions and establish pathways for recovery These chapters provide a wide range of survival stories that raise awareness of the issues involved in healing after sexual assault and also provide inspiration for reforming negative societal issues and patterns In a classroom setting these chapters deliver both the culturally grounded knowledge and the skillsets necessary for recovery This is a vital guide for students and practitioners in counseling social work theology and gender studies *Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies* Keengwe, Jared,2022-12-28 Digital content and learning technologies are now the norm at all levels of education However there is evidence to suggest that this digital shift is on a spectrum and the spectrum impacts learners in

different ways This means that some instructors who seek to integrate digital content may do so using traditional teaching methods while others use innovative practices to engage learners Those who integrate innovative digital practices align their instructional practice with theories to facilitate student centered pedagogies that support and improve the depth and scope of student learning A primary characteristic of student centered learning is facilitating collaborative learning using digital content and learning technologies to engage students as well as to enhance meaningful learning The Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies provides K 20 educators with alternative pedagogical and andragogical models that are innovative and incorporate digital content and learning technologies that promote constructive learning Further this book explores the relationship between constructivist learning digital content and learning technologies A primary argument in this book is that constructivist teaching strategies such as collaborative learning coupled with digital content and purposeful learning technologies could benefit student learning in ways that are different from those practiced in traditional non digital learning environments Covering topics such as instructional design self efficacy and library engagement this major reference work is an essential resource for pre service teachers teacher educators faculty and administrators of K 20 education librarians researchers and academicians
