Treating Children's Psychosocial Problems in Primary Care Beth Wildman, Tracy Stancin, 2006-05-01 The Forum that led to this volume was the thirteenth in an on going annual series sponsored by the Applied Psychology Center APC at Kent State University The resources and programs of the APC allowed for the prominent clinicians and scholars to attend the meeting and interact informally in the picturesque and relaxing atmosphere of the Inn at Honey Run in the heart of the Amish area of Northeast Ohio This environment nurtured interaction among the participants for three days and permitted all to leave the Forum with ideas well beyond those presented in the text We are grateful to the APC for facilitating this endeavor The editors would especially like to acknowledge the on going contribution of Kathy Floody without whose help neither the Forum nor this book would exist Kathy arranged for every detail of the Forum from transportation plans rooms food and drink to scheduling of papers discussions and tours of the local area Kathy compulsively reviewed all chapters for references errors and oversights and maintained a positive disposition and encouraging demeanor throughout the process The success of the Forum was as much Kathy's doing as it was the responsibility of the scholars who participated

Disability Dialogues Andrew J. Hogan, 2022-11-29 The author argues that postwar clinical professionals resisted adopting more positive accepting and sociopolitical perspectives on people with disabilities as were espoused by self advocates and family advocates primarily owing to concerns about professional role identity and prestige

Textbook of Developmental Pediatrics Marvin I. Gottlieb, Janice E. Williams, 2013-11-11 Child adolescent development and behavior have been a traditional concern of primary health care providers However it was not until the mid 1960s that attempts were made to consolidate developmental behavioral issues into an identifiably distinct fund of medical knowledge During the ensuing two decades developmental behavioral pediatrics was recognized as a clinical and research subspecialty within the framework of comprehensive health care for children The influence of public advocacy groups topic dedicated journals national professional specialty societies subject related continuing education programs and federal legislation PL94 142 has served to crystallize developmental behavioral pediatrics as a specialized field of study As a consequence during the past ten years significant modifications have restructured medical student and pediatric resident education providing an emphasis on developmental behavioral issues The focus on neurodevelopmental educational and psychosocial issues reflects changing priorities in traditional health care for children The postgraduate training of pediatric fellows in two and three year training programs was initiated to accommodate professional manpower needs in both academic and practice settings Many of the problems in childhood development and behavior frequently span the traditional areas of child neurology child psychiatry and general pediatrics As a result there has been some confusion in demarcating professional responsibilities in diagnosis and management as well as poorly defined terminology and classification schemas With the birth of developmental pediatrics as a pediatric specialty a more cohesive fund of knowledge has been accumulated and more meaningful strategies have been designed for prevention diagnosis and management

[COVID-19 Impacts on Child Health](#) Jessica L. Peck, 2025-04-07 This book addresses the holistic impacts of COVID 19 on child health and gives a supportive framework for interprofessional pediatric teams serving children across the care continuum The COVID 19 pandemic radically altered fundamental norms of pediatric care delivery across the service continuum While the public rapidly adopted an echoing narrative that children were not severely impacted by physical disease burden growing concern

emerged regarding long term holistic health impacts with diagnoses like myocarditis COVID toes long COVID and other unique pediatric manifestations Sequelae arising from detrimental health impacts rapidly escalated Inequity dominated analysis of the alarming disparities in child morbidity and mortality Loss of social safety nets increased concerns for abuse neglect food insecurity and lack of connection to critical support services Instant social isolation drove billions of children worldwide to seek online connections as families struggled with imminent health threats facing frontline workers economic distress associated with loss of income or transitioning to new work and school norms in the home A disinfodemic erupted in the wake of wary health consumers facing an avalanche of misinformation Universal vaccination rates plummeted in the first months of the pandemic with full recovery to pre pandemic coverage rates projected to be years in the future Prominent professional organizations in conjunction with the American Academy of Pediatrics declared a national emergency in child and adolescent mental health This book explores a spectrum of care settings impacted primary care acute care specialty care telehealth and institutional settings It considers holistic health impacts with contributions analyzing elements such as developmental and behavioral health social media vaccine preventable disease abuse and neglect children with special health needs social risks to health and more It is authored by highly regarded pediatric experts who each contribute to a comprehensive practical guide for interprofessional pediatric stakeholders with lessons learned and calls to action to effectively respond to health impacts on children arising from the COVID 19 pandemic **Nelson Textbook of Pediatrics**
