Guidelines for Evaluating the Performance of Highway Sound Barriers Highway Innovative Technology Evaluation Center (U.S.), 1996-01-01 Prepared by the Highway Innovative Technology Evaluation Center a CERF Service Center This report presents the HITEC evaluation plan for U.S. Gypsum's Sight and Sound Screen. The Sight and Sound Screen is a post and panel wall system designed to act as a sight and sound barrier for highways and as a privacy system for residential and commercial property owners. The HITEC evaluation will measure the performance of the barrier against the criteria presented in this report which reflect the needs of the highway community. Although this evaluation plan was tailored to one product as a service to state and local transportation officials, the report was expanded to provide guidelines that can be adapted for use with other types of sound wall systems.

Engineering Construction Specifications J. Goldbloom, 2012-12-06 For the past 25 years Joe Goldbloom and I have conducted a running debate over whether specifications writers engage in the unlawful practice of law. Joe's position is that lawyers have no business writing specifications that being the designer's province. Having been given the honor to write this foreword I have the opportunity for the last word at least for now. Joe Goldbloom and I first met in 1964 while serving together on the ASCE Committee on Contract Administration. Joe became my teacher, mentor and friend. Underlying our good-natured debate was the serious issue of the technical qualifications required of a specifications writer. As a matter of fact, specifications writing traditionally has fallen in a crack between the two professions. Specifications writing typically is neither taught in engineering school nor in

law school Engineers are taught how to design lawyers are taught how to draft contracts Specifications writing requires mastery of the technical elements of design as well as the skills of contract drafting Specifications writing is neither glamorous nor sexy it is often viewed as a necessary evil of the designer s job *Cost-effective Practices for Off-system and Local Interest Bridges* F. W. Klaiber, Terry J. Wipf, Francesco M. Russo, National Cooperative Highway Research Program, 2004 TRB s National Cooperative Highway Research Program NCHRP Synthesis 327 Cost Effective Practices for Off System and Local Interest Bridges examines off system bridge design construction maintenance financing rehabilitation and replacement For this report off system refers to those bridges typically owned and maintained by local agencies and by state agencies on rural and other low volume roads **The Code of Federal Regulations of the United States of America**, 1989 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government Code of Federal Regulations United States.
