Marx and the Robots Florian Butollo,Sabine Nuss,2022-02-20 Marxist discourse around automation has recently become waylaid with breathless techno pessimist dystopias and fanciful imaginations of automated luxury communism This collection of essays by both established veterans of the field and new voices is a refreshingly sober materialist reflection on recent technological developments within capitalist production It covers a broad range of digital aspects now proliferating across our work and lives including chapters on the digitalisation of agriculture robotics in the factory and the labour process on crowdworking platforms It looks to how 20th century Marxist predictions of the workerless factory are or are not coming true and how Platform Capitalism should be understood and critiqued Through rich empirical theoretical and historical material this book is necessary reading for those wanting a clear overview of our digital world

Smart and Sustainable Manufacturing Systems for Industry 4.0 Vijaya Kumar Manupati,Goran D. Putnik,Maria Leonilde Rocha Varela,2022-08-04 The current perspectives of smart and sustainable manufacturing systems hold important implications for current practices and understanding these concepts for further implications This comprehensive reference text discusses both centralized and decentralized production systems using variety of new cutting edge approaches to solve the problem The text covers simulation based approaches including social network based approaches discrete event based approaches and knowledge based for smart and sustainable systems It further covers mathematical models such as single objective multi objective and many objective The text discusses important topics including energy efficiency transportation constrains for efficient and effective production meta heuristic and hybrid algorithms and real time monitoring and analysis for smart and sustainable production This book Presents approaches to improve the objectives of sustain ability and smart production systems Discusses Internet of Things IoT and Industrial Internet of Things IIoT concepts and its implementation for production systems Covers social network analysis method in distributed manufacturing systems Examines reckoning prognostics and diagnostics to monitor the health of the systems in perspective of distributed manufacturing Discusses aspects of Industry 4 0 in specific production systems The text will be useful for graduate students and professional in the fields of mechanical engineering production engineering industrial engineering and manufacturing

Experimental Robotics IX Marcelo H. Ang,Oussama Khatib,2006-03-09 The International Symposium on Experimental Robotics ISER is a series of bi annual meetings which are organized in a rotating fashion around North America Europe and Asia Oceania The goal of ISER is to provide a forum for research in robotics that focuses on

novelty of theoretical contributions validated by experimental results The meetings are conceived to bring together in a small group setting researchers from around the world who are in the forefront of experimental robotics research This unique reference presents the latest advances across the various fields of robotics with ideas that are not only conceived conceptually but also verified experimentally It collects contributions on the current developments and new directions in the field of experimental robotics which are based on the papers presented at the Ninth ISER held in Singapore *Thomas*
